Dear Gardener,

Welcome to the 25th Tamar Organics Seed Catalogue for the best in organic seed varieties for your garden. The 2018 gardening weather has been challenging to say the least. Winter hung around well into March thanks to the beast from the east only to be replaced by strong winds and heavy rain for much of the country until summer arrived to bake both us and our gardens. Despite this our gardens here at Carthamartha Farm have coped well and, once again, been very productive.

We were expecting reduced yields from our various potato varieties due to the searing heat and lack of rain in June and July. We were, however, pleasantly surprised by the yield and the quality of the crop. The new variety **GATSBY** particularly impressed us. Nearly all the tubers harvested were baking size; clean, uniform and very tasty. It has been a great year for cucumbers; the new gherkin type **EXCELSIOR F1** did very well and is the most productive and good-looking gherkin we have ever seen. Actually everything in the greenhouse has done well with the aubergines, tomatoes and peppers really enjoying the sunshine. Tomato **GOLDIANA** has been great (again) and must be one of the finest small tomatoes and the taste of **BERNER ROSE** has been quite remarkable.

New introductions this season include **GAMMASON**, a new non-hybrid spinach that is reputed to be good for summer cropping, **RIOJA F1**, a purple sprouting broccoli for the earliest pickings from mid-February and **RASMUS**, a non hybrid calabrese which gives a large central head and then follows up with a good crop of smaller side shoots.

The biggest news for the coming season, though, is our **NEW WEBSITE** which is to be launched in September. It replaces our old one which was built before smartphones and tablets were even invented! The re-vamped site will have up-to-date details about new introductions and stock availability as well as more information about us and our products. It will have a smoother ordering and payment system and you can browse, order and pay on your computer, phone or tablet.

We are delighted to continue our association with the **JOLIBA TRUST**. A charity based in central Mali which works on self-help projects amongst rural communities. We aim to support and draw attention to the work that Joliba do and invite our customers to find out more about them at www.jolibatruf.org.uk.

Finally, it once again remains for us to thank all our customers for their continued custom and support and to wish everyone a successful and bountiful gardening year.

Happy Organic Gardening

Cathy & Neil.

“Check website for availability” Due to the challenging weather, some seeds had not arrived at the time that this catalogue was printed. All are expected in early 2019 and are marked as “Check website for availability “. Alternatively you can telephone or email for information about when they are expected to arrive.

RETAILERS: Shops wishing to stock ORGANIC seeds can request our retailers letter which includes details of our display racks and trade discount scheme.

DISCOUNTS: Group discounts for allotment societies, garden clubs etc. are available on application. Please telephone for details.

Supplementary Terms Of Business:

All seeds sold by TAMAR ORGANICS are supplied in accordance with EU seeds legislation.

In the event of seed failing to germinate under suitable conditions we will replace the seed or refund the purchase price.

All descriptions of varieties are for guidance only and we will not be held responsible for any crop grown from seeds or plants supplied by us.

Seed counts are provided for your guidance and should be regarded as approximate.

Tamar Organics will not be liable for any delay, consequential loss or injury arising as a result of the delivery or use of items ordered from this catalogue or via our website.

All prices include VAT where applicable.

Ordering implies acceptance of these terms.

Our full company terms and conditions are available on request.

Payment:

All orders should be accompanied by full payment except

- A. Where goods are to be collected and payment is made on collection.
- B. Where the customer has applied for and been granted a credit account whereupon payment is due by the 20th of the month following month of invoice.

Cheques should be made payable to "TAMAR ORGANICS".

Payment can also be made by telephone using a credit or debit card or by bank transfer.

We are delighted to continue to offer varieties from the Biodynamic vegetable breeding initiative from Germany called **Kultursaat eV**.

In 2015 they celebrated 20 years of breeding top quality open-pollinated varieties for the organic market. Very welcome in an industry which is gradually being taken over by fewer and fewer large multi-national seed companies bent on owning the rights to the seeds that feed the world. **Kultursaat eV** are responsible for an increasing number of varieties in this catalogue. These are indicated by this symbol.

VEGETABLE VARIETIES

ARTICHOKE, GLOBE

IMPERIAL STAR (10) ARIS £1.50
Improved Green Globe type which can be grown as an annual or perennial. Up to 8 good sized buds per plant.

ARTICHOKE, JERUSALEM

FUSEAU (500g) JEFU £6.95
Popular variety with long smooth cream tubers.
GERARD (500g) JUGE £7.95
French gourmet type with round pink tubers.

AUBERGINE

BLACK BEAUTY (50) AUBB £1.50
Traditional, open pollinated variety dating back to the 1800's. Dark glossy, oval fruits up to 12 cm in length.

LONG PURPLE (50) AULP £1.50
Fine, open pollinated variety that produces a good crop of long, black, cylinder-shaped fruit. Widely grown throughout the world.

LISTADA DE GANDIA (50) AULG £1.50
Very attractive, oval aubergine with bright purple stripes on a white skin. Medium early variety giving fruits up to 18 cm long.

BLACK PEARL F1 (5) AUBP £2.95
Professional-standard hybrid with half-long, deep coloured fruits. Suitable for unheated undercover use. Reliable and productive.

FALCON F1 (5) AUFA £2.95
Excellent hybrid, ideal for unheated greenhouse and tunnels. Numerous dark, smooth fruits with a spineless calyx.

BEANS, BROAD

SUPERAQUADULCE (35) BBSA £1.50
Large Pack 250g (200) BBSA250 £4.15
Improved Aquadulce type for autumn sowing to give the earliest crops. High yielding with good sized tasty beans. Can be spring sown.

EXPRESS ELEONORA (35) BBEE £1.50
Large Pack 250g (200) BBEE250 £4.25
Improved selection of the popular Express variety. Fairly fast growing plants, not too tall. Long pods well packed with tasty white beans.

HANGDOWN GREEN (35) BBHD £2.25
Large Pack 250g (200) BBHD250 £4.75
This bean has become our favourite for performance and taste. A long-podded, main-crop green seeded bean. Sow from early spring.

RATIO (35) BBRO £1.50

Large Pack 250g (200) BBRO250 £4.25
Fast-growing, high-yielding, tasty, white seeded bean. It has a multi-branched slightly short habit so is high yielding and resistant to falling over.

WITKEIM (35) BBWK £1.80

Large Pack 250g (200) BBWK250 £4.35
Very early crop from a spring sowing. This is the bean to go for if you miss out on autumn sowing. Excellent yield and quality.

BEANS, DWARF FRENCH

FARADAY (60) BFFA £1.50

Delicate, dark green bean giving high yields over a long harvesting period. Good disease resistance.

AIGUILLON (60) BFAI £1.50

A pencil-thin, long, 'haricot vert' type. Strong upright plants give good yields of tasty stringless beans. Ideal for cooking whole. Resistant to BMV 1 and anthracnose.

MARONA (60) BFMR £1.50

Very early, long-podded round hulled bean to replace Speedy. This variety will produce well even in dry seasons and is suitable for inside and outside use.

BARLOTTO DI FUOCO (60) BFBD £1.50

Popular colourful French bean with bright red streaks on the green pods. Can be picked young or left to mature for excellent drying bean.

MAXI (60) BFMX £1.50

Medium green, early, with round oval pods. Vigorous and weather tolerant. Beans are held above the leaves for easy picking.

HELIOS (60) BFHL £1.50

Tasty yellow variety. Round yellow beans grow up to 18 cm long on robust plants. High yielding.

PURPLE TEEPEE (60) BFPT £1.50

Early-main crop purple-podded variety with good crops of round, stringless and tasty beans which turn green on cooking.

BEANS, CLIMBING FRENCH

BARLOTTO DI FUOCO (60) BFBA £1.80

Climbing version of this colourful French bean with bright red streaks on the green pods. Pick young or leave to mature for a great drying bean.

BLAUHILDE (60) BFBH £1.80

Long, oval, purple pods which stay tender even when quite large. Definitely one of the best climbers. Grow indoors or outside.

COBRA (60) BFCO **£1.80**

Professional quality bean with long round pods which remain very straight. Long cropping period. Vigorous, stringless and resistant to BMV 1.

NECKARQUEEN (60) BFNQ **£1.80**

Medium late, high quality climber with round/oval pods up to 29cm in length. Resistance to BMV 1 and 2.

NECKARGOLD (60) BFNG **£1.80**

Round podded yellow bean of good length and taste. High-yielding medium-late bean suitable for growing indoors and outside.

HELDA (60) BFHE **£1.80**

Large flat pods of superb quality. The taste is great and they remain stringless until quite large. Resistant to bean mosaic virus. Ht.7ft.

GOLDEN GATE (60) BFGG **£1.80**

Bright and attractive flat, golden-yellow beans. Excellent French bean produces heavy crops of white seed pods over a long period. RHS Award of Garden Merit.

BEANS, RUNNER**ENORMA (30)** BREN **£1.80**

Large Pack 250g (250) BREN250 **£5.75**

A heavy cropper with long smooth pods and a favourite of ours and of professional growers.

WHITE EMERGO (30) BRWE **£1.80**

Large Pack 250g (250) BRWE250 **£5.65**

White seeded and white flowering variety which are said to suffer less bird damage. Lovely traditional taste and texture.

SCARLET EMPEROR (30) BRSE **£1.80**

Large Pack 250g (250) BRSE250 **£5.65**

Traditional favourite with a slightly rough texture and an excellent flavour.

LADY DI (30) BRLA **£1.80**

Large Pack 250g (250) BRLA250 **£5.75**

Excellent stringless variety with good sized attractive pods of very uniform shape. Great texture and taste.

BEANS, EDEMAME

Popular high protein bean from Japan which is grown much like a dwarf French bean and does well in our climate. There are many ways to enjoy them but boiled in their pods and salted is most popular. The pods are not eaten.

GREEN SHELL (40) BMGS **£2.50**

Dark green pea-sized pods are formed on fine plants which grow to about 60 cm. Each pod contains about 3 tasty beans.

SUMMER SHELL (40) BMSS **£2.50**

Very similar to green shell, Summer has a very slightly smaller bean but is slightly faster growing. Each pod contains about 3 tasty beans.

BEETROOT**ALVRO MONO (200)** BEAM **£1.50**

Very early mono-germ type giving round, smooth roots. Can be pickled whole when young.

BULLS BLOOD (200) BEBU **£1.15**

Grown for crimson salad leaves that are sweet, tasty and strikingly attractive. Roots can be eaten when young. Also popular as an ornamental plant in the border.

BARBIETOLA BECH **£1.50****DI CHIOGGIA (200)**

Mild-flavoured, sweet-tasting Italian beet with pink skin, white flesh and attractive pink rings.

JANNIS (180) BEJA **£1.50**

This Boltardy selection always performs extremely well and has become very popular.

Good resistance to bolting so sow from March in mild areas. Fine tasting globe-shaped roots.

DETROIT GLOBE (200) BEDG **£1.15**

High standard main crop variety giving good sized roots of fine texture and flavour.

CYLINDRA (180) BECN **£1.50**

Long rooted type with very good flavour. Perfect for slicing and stores well. Matures slower than globe varieties.

ROBUSHKA (200) BERO **£1.80**

Vigorous variety with round smooth roots. Excellent fruity taste and a deep dark coloured flesh.

GOLDEN (200) BEGD **£2.25**

Interesting colour variation. Flavoursome variety with golden flesh which does not bleed on cooking. Many prefer the taste of this variety

BROCCOLI**PURPLE SPROUTING (300)** BRPE **£1.15****EARLY**

The most popular variety of broccoli for garden use. Succulent purple spears are produced in abundance from mid-March.

RIOJA F1 (35) BRRJ **£2.50**

Early hybrid for the first purple sprouting pickings from mid-February. Plants do not get too tall and spears are easy to pick.

SANTEE F1 (35) BRBO **£2.50**

Santee has been developed to give a whole new season to purple sprouting, Sow Feb to May for high yields of tasty spears from June to Nov.

BRUSSELS SPROUTS**NAUTIC F1 (25)** BSNA **£2.25**

Harvest early October to late November from a May transplant. Tasty round button sprouts.

DORIC F1 (25) BSDO **£2.25**

Excellent sprout for Christmas. Does not grow too tall so good for exposed sites. Round buttons with fine flavour. Crops Nov-February.

GRONINGER (125)

BSGR £1.50

Great, sweet, tasting sprouts from November-December. Improved by the first frost.

**IDEMAR (50)**

BSID £1.50

New, medium-tall brussels sprout that has been bred for its flavour. Evenly distributed, slightly oval sprouts for harvest from mid-November through December.

CABBAGE, SPRING (Sow July-Sept.

Transplant Sept-Oct. Cut in spring)

WINTERGREEN (50)

CAWG £1.15

Great variety for early spring greens but will heart up from April onwards. Dark leaves with classic spring greens taste.

CABBAGE, SUMMER/AUTUMN (Sow

Feb.- April. Harvest June - Nov)

CARAFLEX F1 (35)

CACX £2.25

Fast growing pointed cabbage. Professional standard, high quality cabbages can be produced throughout the summer and into autumn.

FILDERKRAUT (150)

CAFK £1.50

Firm mid-season pointed cabbage which is particularly good tasting. German heirloom variety with thin leaves and small core. Can grow very large so plant closer for smaller heads.

**NAGELS (100)**

CANG £1.80

Very fast growing round head cabbage for use early and throughout the season. Uniform small -medium heads about 1—1.3 kg. ready in 60 days from a March transplant.

MARNER LAAGERWEISS(100)

CAMW £1.80

Large, strong growing white cabbage with solid heads. Stands and stores well. Harvest from mid-summer through autumn.

CABBAGE, AUTUMN /WINTER

(Sow Apr-May. Plant out Jun-Jul. Cut winter)

DEADON F1 (50)

CADN £2.25

January King type hybrid giving solid heads with dark green, red-tinged outer leaves and yellow internal colour. Peppery yet sweet taste.

**DOTTENFELDER (100)**

CADD £2.25

A favourite of ours. Large firm white winter cabbage which stores very well. Can be used cooked or for coleslaw.

**DOWINDA (100)**

CADW £2.25

Vigorous, high-yielding storage cabbage with a dense closed head. Elliptical in shape and with a short inner stem Dowinda is similar in taste to Dottenfelder but with a lighter aroma.

DRAGO F1 (50)

CADR £2.25

Modern hybrid green ball-head variety which provides tight high quality cabbages about 1kg in weight. Harvest Sept-Oct.

IMPALA F1 (50)

CAIM £2.25

White cabbage hybrid for harvesting as late as mid November. Professional quality heads which stand and store well.

STANTON F1 (50)

Check website for availability

Vigorous, ball-head, winter-cabbage which will stand well until early spring. Compact heads surrounded by dark-green leaves.

CABBAGE, SAVOY**VORBOTE 3/HILMAR (100)**

CAVO £1.80

Unique, very early Savoy. Slightly pointed, deep-green heads with fine taste. Sow Jan -March to crop from May throughout the summer. Can also be sown later for autumn/winter harvest.

PARESA F1 (50)

CAPA £2.25

Late-maturing savoy with dark green flattish round heads. Excellent hybrid quality it can be cropped right through the hardest winter. Good standing ability.

VERTUS (300)

CAVE £1.15

Our most popular Savoy; Vertus is a medium late variety with round flattish heads. Leaves are medium green, well blistered and frost hardy.

VIOLACEO DI VERONA (100)

CAVI £1.80

Traditional Italian savoy cabbage which is similar to January King with red tinged outer leaves and excellent taste.

RED CABBAGE**RED DRUMHEAD (250)**

CARC £1.15

Good for pickling as well as eating raw in salads or can be cooked like green cabbage.

LANGEDIJKER BEWAAR 2

CALA £1.50

Very nice medium-large red cabbage, It has a high round shape, good colour and will store well.

RODYNDA (100)

CARO £1.80

Short stemmed red cabbage which keeps very well. This has been well proven amongst organic growers on the continent.

**BUSCARO F1 (35)**

CABU £2.50

Large sized hybrid red cabbage of very high quality. Lovely internal and external colour, tight tasty heads. Crop late summer to autumn.

CALABRESE

See Cauliflower section for Romanesco Veronica F1

GREEN SPROUTING (250)

CBGR £1.15

Excellent flavour. Heads ready in August and followed by numerous side shoots. Crops over long period.

COVINA F1 (50)

CBFI £2.25

Hybrid producing healthy and productive plants. Solid stems are topped with high quality solid heads which mature in about 80 days from transplanting. Replaces Fiesta F1.

BELSTAR F1 (50) CBBE £2.25

Productive hybrid giving tasty heads through summer and autumn. Matures in about 70 days from transplant and has good mildew tolerance.

**RASMUS (50)** CBRU £2.25

Fast-growing non-hybrid giving high quality large central heads on strong stems, within about 65 days from planting. Numerous side-shoots can also be harvested. Pleasant aromatic flavour.

CAPE GOOSEBERRY**SCHOENBRUN GOLD (15)** CPGO £1.50

Rich, golden berries, each in its own paper lantern. Best grown under-cover, plants are vigorous so will need support.

CARDOON**GIANT OF ROMAGNA (10)** CNGR £1.50

A globe artichoke type plant that is grown for its tasty edible stems rather than the flower buds.

CARROTS

(Open-pollinated)

**OXHELLA (800)** CRXH £1.50

Improved Oxheart variety. Broad conical roots up to 16 cm in length. Excellent aromatic taste and good internal colour.

**MILAN (800)** CRML £1.50

Special, fast-growing Nantes selection with a particularly sweet taste. Sow early for the first carrots or late for crops that will store well too.

AUTUMN KING (800) CRAK £1.15

Popular high yielding main crop. Good flavour and storing ability. Pull throughout the winter.

BAMBINO (800) CRBA £1.15

Real 'Baby Carrot' variety. Slender cylindrical blunt roots which colour up early. It is early and sweet and is best pulled at 10-15 cm in length.

BERLICUM (800) CRBE £1.15

Mid-season main crop giving good sized, uniform stump roots up to 20 cm long. Excellent colour and texture.

YELLOWSTONE Check website for availability

Remarkable yellow main crop carrot with an excellent flavour both raw and cooked. Slightly tapered with smooth skin and crunchy texture.

NANTES (800) CRNA £1.15

Small cored medium length early carrot with smooth skin and blunt ends. Sow March - August and Harvest July-October. Delicious.

**RODELIKA (800)** CRRD £1.50

An improved bio-dynamic selection of Rothild. Large and blunt ended with an intensive red colour and strong sweet-aromatic taste.

**ROLANKA (800)** CRRN £1.50

Mid-length to long cylindrical carrot. Smooth skin with an appealing, even colour. Strong pleasing flavour. For autumn harvest.

SOLVITA (800) CRSO £1.50

Vigorous new high-yielding main-crop carrot with rapid early growth and very healthy, strong foliage. Strongly aromatic and sweet carrot taste.

**CARROTS**

(F1 hybrids)

NAPOLI F1 (500) CRNP £1.80

Early maturing, Nantes hybrid to replace Laguna and Jeanette. Slightly tapering roots with good colour and taste. Ideal for bunching.

MIAMI F1 (500) CRMI £1.80

A mid-late season Nantes hybrid for cropping late summer and autumn. Smooth, slender blunt-ended carrots with strong tops.

RESISTAFLY F1 (500) CRRF £1.80

Carrot fly resistant variety. Tasty Nantes hybrid with long, smooth, well-coloured roots.

WHITE SATIN F1 (500) Check website for availability.

Unusual colour addition in our carrot range. Long slender white roots with a juicy texture and a sweet flavour.

CAULIFLOWER, SUMMER/AUTUMN

(Sow Jan-May)

MARDI F1 CFMA £3.25

New fast-growing summer cauliflower for harvest from July to October. Strong, white curds with good self-cover, they mature in about 80 days from transplant.

JANVEL F1 (50) CFJA £3.25

Gorgeous, high-quality variety for autumn use. Finely formed, densely filled, slightly domed heads; well protected by the inner leaves.

GOODMAN (50) CFGO £2.25

Crop in June from a mid March transplant this is an excellent summer cauliflower. It has solid curds and upright dark green leaves.

SNOWBALL (125) CFSN £1.50

Dwarf compact plants which can be set closer than others for smaller heads. Sow Oct to crop in June or Feb-April to crop late June to Sept.

SKYWALKER F1 (50) CFSK £3.25

This outstanding hybrid gives fine, deep white curds of excellent quality. Crop October.

VERONICA F1 (30) CFRV £3.25**ROMANESCO**

Excellent green variety of superb flavour. Bright colour makes this an interesting one to grow. Delicious alternative to white cauliflower.

CAULIFLOWER, OVER WINTER TYPES

(Sow Apr-June)

MEDAILLON F1 (50) CFMS £3.25

Excellent professional standard cauliflower for over-wintering. Large, well-protected curds of top quality. Matures in February and March.

CELERIAC

IBIS (250) CEIB £1.50

Fast growing and very smooth rooted. Stores well and has good disease tolerance. Good bolt resistance so suitable for early plantings.

MONARCH (250) CEMO £1.50

Large and heavy tankard-shaped celeriac with exceptionally white and firm flesh. It has a mild and nutty taste and stores very well.

CELERY

TALL UTAH (300) CLTU £1.50

Green stalks with no earthing required. High yielding with juicy firm stems. Crop September.

TANGO F1 (250) CLTA £3.25

A self-blanching celery with smooth apple-green stems. with good flavour and texture. High yielding fast growing and tolerant of hot weather.

CELERY LEAF (500) CLLF £1.15

Lots of leaf instead of stems. Fine celery flavour. Also produces seeds for soups and stews.

CHARD (see also Spinach, perpetual & Beetroot Bulls Blood)

SWISS CHARD (200) CHSW £1.15

Large pure white rib with dark green leaves. Swiss Chard is probably the highest yielding of the chards. Can be sown until late summer.

RHUBARB CHARD (200) CHFE £1.15

Striking variety with tasty red/green leaves and an impressive red stem and rib. Leaves are large and slightly savoyed.

FIVE COLOURS (200) CHFC £1.50

A lovely mixture of various coloured stems and leaves. Can be used as baby leaves for salads or cooked when fully grown.

CHICORY, LEAF-TYPE

PAIN DE SUCRE (500) CCPA £1.15
(Sugar Loaf)

Large leafy variety which resembles a Cos lettuce. Good alternative for late season salads but will only stand mild frost.

GRUMOLO VERDE (500) CCGV £1.15

Cut blade shaped leaves for summer salads or leave plants to overwinter for rosettes of salad leaves in the spring.

ROSSA DI TREVISO (500) CCRO £1.15

Long pointed leaves for sowing June to July. Starts off green and turns red in the colder months. Roots can be forced like Witloof.

PALLA ROSSA 3 (500) CCPR £1.15
(Radicchio)

Firm hearts with red/maroon and white leaves for colour and crunchiness in salads. Hardy so ideal for late season use. Very good colour contrast.

ORGANIC COMFREY

ROOT CUTTINGS

This is Bocking 14, the best variety for growing for plant feed. Comfrey is tolerant of poor ground so it is a great way of starting off your own natural fertiliser factory virtually anywhere that you have a spare patch.

In the season after planting the leaves can be harvested up to 5 times per year to use as a mulch or to make your own liquid feed for tomatoes and other fruiting and flowering plants.

Cultivation notes included.

Dispatched April-June.

6 root cuttings COM6 £7.50

12 root cuttings COM12 £13.00

See website for comfrey liquid ready made on our own Organic Farm.

CHICORY, FORCING TYPE

WITLOOF (500) CCWI £1.50

HOLLAND EARLY

Traditional chicory for forcing and the production of chicons. May May.

CLAYTONIA CLWP £1.50

(WINTER PURSLANE) (900)

Extremely popular hardy salad vegetable. The tasty and succulent leaves are high in vitamin C and will grow almost anywhere.

CORN SALAD

VIT (500) CSVT £1.15

Vigorous variety for spring and autumn crops as well as overwintering. Deliciously tender glossy leaves. Also has mildew resistance.

ELAN (500) CSEL £1.15

Faster growing than Vit, Elan is ideal for early use under glass as well as in the field. It is widely grown by organic growers on the continent.

COURGETTE (Open Pollinated)

NERO DI MILANO (15) COND £1.15

Dark green cylindrical fruits of fine quality. Open plant habit for easy picking and produces courgettes over a long period. Very popular.

COCOZELLE (10) COCO £1.15

Traditional striped courgette widely grown in the Mediterranean area. This is among the tastiest of courgettes with a distinctive nuttiness and firmness of texture.

GENOVESE (15) COGE £1.15

Popular pale green courgette. Genovese has fine, lightly mottled green fruits and an open bush habit. Delicious and high yielding.

ZUBODA (15)

COZU £1.50

Our favourite courgette and one of the first organic varieties we ever sold. High yielding bush variety with long, green lightly mottled fruits with fewer seeds in the centre than most varieties.

GOLD RUSH (10)

COGO £1.50

Lovely open pollinated yellow skinned courgette with excellent texture and taste. Fast growing and productive.

TONDO DE NIZZA (10)

COTO £1.50

An unusual round courgette giving good yields of small round fruits with a mid green mottled skin and fine flavour. Ideal for stuffing.

COURGETTE

(F1 hybrids)

ZELIA F1 (5)

COZE £2.25

Professional standard courgette to replace Defender. Like Defender it has CMV resistance but is also mildew resistance. Good cylindrical shape, glossy mid-green colour and a long cropping period.

DUNJA F1 (5)

CODJ £1.80

Professional standard courgette with excellent virus and mildew resistance. High yields of dark green, finely speckled fruits of excellent quality.

FLORIDOR F1(5)

COFL £2.25

Bright yellow, round fruits of high quality. The vigorous plants are high yielding. Excellent flavour and perfect for slicing or stuffing.

GEODE F1 (5)

COGD £1.80

Early and high-yielding, hybrid, round courgette with attractive mid green fruits. Tasty and interesting courgette.

GOLDY F1 (5)

COGY £1.80

Uniform, cylindrical, smooth and intensely yellow fruits with a tasty creamy flesh. Plants are largely spineless and fruit matures in about 55 days.

CRESS**AMERICAN/LAND (700)**

CSAL £1.15

Similar to Watercress but will grow in drier conditions. Strong spicy flavour. Very easy to grow.

SPRINT (3000)

CSSP £1.15

Fast maturing sprouting seed for summer salads. Can be sown inside, on paper, or outside when weather is warm.

WATERCRESS (4000)

CSWC £1.15

Increasingly popular salad vegetable that needs moist conditions (running water is not essential). Strong flavoured and vigorous. Can be successfully grown in containers.

CUCUMBER, INDOOR**PASSANDRA F1 (5)**

CUPS £3.25

High-quality, short variety which has become a best seller. High yields of 15-17 cm fruits of top quality. Powdery and downy mildew tolerant.

PICOLINO F1 (5)

CUPI £3.25

Extra mini-cucumber which gives very high yields of fruits that are always good quality. Ideal length for the home gardener. Length 12 cm.

EXCELSIOR F1(5)

CUEX £3.25

High yielding pickling cucumber gives dark green blocky 10-12 cm fruits with a spiny skin. Excellent flavour.

HELENA (5)

Check website for availability

Unique non-F1 green house cucumber giving long smooth fruits with a medium-dark green colour. All female but can throw some male flowers in times of stress. Excellent taste.

KALUNGA F1 (5)

CUKA £3.95

Lovely high yielding hybrid with high levels of disease resistance and powdery mildew tolerance. Tolerant of hot and cold conditions so suitable for early and late season crops. We have grown this outside in a sheltered spot during good summers.

STYX F1 (5)

CUST £3.95

Top quality all female cucumber with a high tolerance of powdery mildew. Fruits are straight and uniform.

TYRIA F1 (5)

CUTY £3.25

Powdery mildew tolerant very high yielding, all female cucumber with dark green slightly ribbed fruits. Very high quality.

CUCUMBER, OUTDOOR**AKITO F1 (5)**

CUAK £3.95

All female with high yields of bitter-free, dark-green fruits about 20 cm in length, Can be grown inside or out.

CRYSTAL LEMON (15)

CUCL £1.15

High yields of easy to digest, round, pale, yellow, fruits for outdoor use. Tasty enough to be eaten straight from the vine.

CUHO £1.50

Open-pollinated gherkin best picked at about 10 cm long. Plants are vigorous and early fruiting giving very high yields of excellent fruits.

MARKETMORE (20)

CUMA £1.15

Dark-green, spiny, fruits produced on very prolific vines. Widely grown variety around the world it tolerates cool weather and is resistant to virus and diseases. Heirloom variety.

**Group discounts**

Discounts for allotment societies, garden clubs etc. are available on application.
Telephone 01579 371087 for details.

ORGANIC GARLIC BULBS

Garlic is easy to grow and has relatively few pests and diseases to worry about. In general the largest and tastiest bulbs are obtained from autumn sown cloves, although spring planting varieties are better keepers. Plant individual cloves about 15 cm apart, just below the surface of the soil, The new bulb will be formed below the clove you plant. Approximately 200-250 cloves per kg.

Autumn sown varieties. *Delivery Sept-December.*

SPRINT: Fast growing type for planting by end December. Good quality bulbs are ready in June - about 6 weeks before Thermidrome. The seed is smaller than other types but still produces big bulbs. Flower heads are produced and can be left on the plant or removed as desired.

GASP1 **125g £5.95** GASP2 **250g £8.45** GASP3 **500g £14.95** GASP4 **1kg £24.55**

GERMIDOUR: Fast growing, purple, short-dormancy variety for harvesting slightly later than Sprint. 10-15 cloves per bulb, this is a high yielding French variety.

GAGM1 **125g £4.60** GAGM2 **250g £6.00** GAGM3 **500g £10.00** GAGM4 **1kg £18.00**

MESSIDOR : Very attractive white variety with a very high yield. 10-15 beige cloves per bulb for harvesting semi-dry from June and dry from late July.

GAME1 **125g £4.60** GAME2 **250g £6.00** GAME3 **500g £10.00** GAME4 **1kg £18.00**

THERMIDROME: Large white bulbs with a hint of pink, 10-15 beige cloves. Very hardy, short-dormancy variety so ideal even in harsh conditions.

GATH1 **125g £4.40** GATH2 **250g £5.75** GATH3 **500g £9.50** GATH4 **1kg £17.00**

VIGOUR SUPREME: Large white bulbs with a hint of purple, 12-17 beige cloves. Always performs very well in our trials.

GAVI1 **125g £4.40** GAVI2 **250g £5.75** GAVI3 **500g £9.50** GAVI4 **1kg £17.00**

ELEPHANT GARLIC *Delivery Sept-December* G AEL1 **£6.50**

Unique Garlic which is actually more closely related to the leek. Grows enormous bulbs whose individual cloves can be as large as a whole bulb of normal garlic. Each pack contains 5 large cloves, (Approximate weight 200g) ***Limited availability while stocks last***

Spring sown varieties. *Delivery Sept-February while stocks last. Best planted January-March*

PRINTANOR: White bulb with 12-18 pinkish cloves, Suitable for planting from January to March but can be autumn sown. Keeps well

GAPR1 **125g £4.80** GAPR2 **250g £6.25** GAPR3 **500g £10.50** GAPR4 **1kg £19.00**

ENDIVE

ESCARIOL GREEN (500) ENEG **£1.80**

Reliable, frost-resistant, broad-leaf endive. For autumn cultivation outside and under-cover through the winter. Fleshy leaves, a well-filled yellow heart and a mild taste.

WALLONE (150) ENWA **£1.80**

Robust curly endive for autumn production outside. Resists the first frosts well, grows vigorously and has a well filled centre.

PANCALIERI (500) ENPA **£1.15**

Frizzy, self-blanching type with green leaves and a white mid-rib. Sow March-Sept.

TRES FINE (150) ENTR **£1.80**

MARAICHERE
Finely curled endive variety with medium-sized, densely filled heads. Plant in spring and autumn outdoors, and early plantings under cover.

FLORENCE FENNEL

FINO (150) FEFO **£1.50**

Early and high quality fennel with resistance to bolting. Thick, tasty, round bulbs with fine anise flavour to braise or grate raw.

ROMANESCO (250) FERO **£1.15**

Late cropping variety giving large round bulbs weighing between 500 and 1000g with good bolting resistance and lovely anise taste.

PRELUDIO F1 (100) FEPR **£2.25**

Very early hybrid fennel. Bright white, smooth, round bulbs and a fine delicate flavour. Good bolt resistance for spring and early summer sowing.

ORGANIC HORSERADISH

3 Root Cuttings HORS £9.50

There is nothing quite like your own horseradish sauce. It will be even better if it is made with your own organically grown horseradish root. Very easy to grow. It is dispatched during April and May and comes with planting instructions.

KALE (BORECOLE)

HALBHOHER GRUN (250) KADG £1.15
KRAUSER

Dwarf Green Curled type. Short-growing frost-hardy kale with dark green, deeply curled heads. Sow April-May, transplant July. Harvest from November.

WESTLAND WINTER (50) KAWE £1.50

Large plant type with blue green, well curled leaves. Very high yielding and has proven to be very winter hardy. Cut October to March.

NERO DI TOSCANA (100) KANT £1.15

Dark, heavily blistered strap-like leaves which grow abundantly from the centre of the plant. Hardy and tasty. Also called Black Cabbage.

RED RUSSIAN (250) KARR £1.15

Attractive wavy blue-green tinged leaves with a purple vein. Can be used as baby leaves or left to mature for hardy winter greens.

ROTE KRAUSER (50) KARK £1.50

Red curly kale, producing medium tall plants with curly leaves which are heavily tinged with purple and have a bright red stem and leaf vein.

KOHL RABI

NORIKO (100) KRNO £1.50

White, globe-shaped, fast maturing kohlrabi which resists bolting and splitting. For May to October production.

SUPERSCHMELZ (100) KRSS £1.50

Traditional variety with pale green skin and white flesh. Can grow to a good size without going woody and will store well.

AZUR STAR (120) KRAS £2.25

Attractive strong purple colour and tender flesh. Ideal for early sowings under cover and main crop use outside. Good bolt resistance.

VIKORA F1 (50) KRVK £1.80

Very uniform, green main crop kohlrabi which stands well and copes well with the heat of the summer months.

LEEKS *(Listed in order of maturity)*

CHINOOK F1 (50) LKCH £2.25

High quality leek with long shafts and erect dark green leaves. Crops very early July onwards. Performs well even when the spring weather is cold, the yields are high and it is very bolt-resistant.

LANCIA (200) LKLA £2.25

Very productive summer-autumn leek with long white shanks and strong foliage. Crops mid-July to October.

AUTUMN MAMMOTH 2 (350) LKAM £1.50

HANNIBAL

Excellent for harvesting August to November. Good yield of medium length, fine flavoured leeks which show good resistance to bulbing.

CHEROKEE F1 (50) LKCK £2.25

Upright, blue-green autumn leek of hybrid quality developed for professional growers. Plants are healthy and vigorous.

AXIMA (200) LKAX £1.50

Long-shafted variety which crops from mid September to December. Very high yielding with attractive dark flag.

TADORNA (200) LKTD £1.50

Top quality long stemmed high yielding leek.

Ideal for cropping October to November but will stand well into winter.

CARENTAN 2 (350) LKCA £1.15

Traditional large thick-stemmed, blue-green leek Heavy yields from October to January.

NAVAJO F1 (50) LKNA £2.25

Professional quality long-shafted leek hybrid for late season use. Matures in November for cropping November to March.

BLUE GREEN WINTER LKBG £1.80

AVANO (350)

Winter hardy leek with attractive blue-green leaves. Stems are long and white. Harvest December to March.

ATLANTA (200) Check website for availability.

Frost tolerant variety for harvesting from December to April. High yields of tall uniform plants with little bulbing.

GIANT WINTER (350) LKGW £1.50

Also known as 'Seigfried'. A late season variety with heavy, thick stems. Matures January onwards and will stand for a long time.

BANDIT (200) LKBA £2.25

Heavy yielding and uniform variety with long shanks and blue-green, upright foliage. Crops from mid-March through May.

LETTUCE, BUTTERHEAD

MATILDA (200) LTMT £1.80

APHID RESISTANT variety for outside use from spring through early autumn. Medium sized with a beautiful green colour. Fast growing and bolt resistant.

MAY QUEEN (800) LTMQ £1.15

Early Butterhead for sowing from late January to March using cloches for the early crops.

MARVEL OF (800) LTMF £1.15

FOUR SEASONS

Great heirloom variety from the 1800's. Fast maturing all season red/green butterhead. Round compact head with very good taste.

Order online: www.tamarorganics.co.uk

SUZAN (600) LTSN **£1.50** **LITTLE LEPRECHAUN (200)** LTLN **£1.15**
 Large framed lettuce which was a favourite of
 ours in our market gardening days and is now
 available as organic seed. It can be sown under-
 cover from February and through the summer.
 Lovely small cos type with striking red leaves
 and crisp, tasty hearts. Leaves are slightly sa-
 voyed and very attractive.

ROXY (200) LTRX **£1.80** **MAUREEN (200)** LTMR **£1.80**
 Voluminous red Butterhead with attractive shiny
 colour. Slow to bolt and resists tip-burn. Suitable
 for spring, summer and autumn crops.
 Improved Little Gem type with solid tasty hearts.
 Suitable for cropping from spring to late autumn.
 Good disease resistance.

LETTUCE, BATAVIAN

BLONDE DE PARIS (600) LTBP **£1.50**
 Bright green heading Batavian lettuce with at-
 tractive crinkled leaves that look great in a salad.
 Sow March through July.

TARENGO (200) LTTN **£1.80**
 This red-tinged, non-heading Batavian type with
 frilled leaves and a bright colour has become a
 real favourite. Crop spring through autumn.

MARAVILLA DE (200) LTMV **£1.50**
VERANO

Excellent large Italian variety. Crispy green
 leaves with a red tinge and great taste. Good
 bolt resistance. Suitable for sowing from Febru-
 ary through July for harvest May-October.

LETTUCE, CRISP-HEAD

SALADIN (800) LTSA **£1.15**
 Dense succulent heads of very good quality.
 Very crisp and stands well when ready. Sow
 March through July.

REGINA DI GHIACCI (800) Expected Jan 2019,
 call or check website for availability
Ice Queen. Slow bolting crisp head for summer
 use. Nice, jagged edges and dark green colour.
 Can also be used as a Baby-leaf variety.

LETTUCE, MIXED

MIXED LEAVES (800) LTMX **£1.15**
 Economical mix of Butterhead, Cos, Crisphead
 and Loose Leaf types giving variety of texture
 and taste right through the season.

LETTUCE, BABY LEAF

*Our own mix of specially developed varieties can
 be sown throughout the year, though only under
 cover in the coldest months. Leaves can be
 allowed to grow on for cut and come again.*

BABY LEAF MIX (800) LTBB **£2.25**
LARGE PACK (8000) LTBX **£9.99**

LETTUCE, COS

LITTLE GEM (700) LTLI **£1.15**
 Dwarf growing Cos variety. The best selling
 gardeners lettuce. Can be sown throughout the
 growing season. NIAB Rec.

PARIS ISLAND (800) LTPI **£1.15**

An excellent and popular medium to large Lob-
 joits type of Cos. Can be cropped from spring-
 autumn as it is slow to bolt.

VALMAINE (200) LTVA **£1.50**

Upright, dark green variety with crisp, elongated
 leaves. Very healthy and resilient. For early
 summer and autumn cultivation.

LETTUCE: LOOSE-LEAF

CANTARIX (200) LTCX **£1.80**
 Dark red Oak Leaf type. Fairly large with a volu-
 minous head of deep red leaves. With Aphid
 Resistance.

CERBIATTA (200) LTCE **£1.50**
 Unique jagged, upright leaves which are crisp
 and fresh tasting. Suitable for inside or outside
 use but needs a lot of light to germinate well so
 leave seed uncovered by soil when sowing.

RED SALAD BOWL (800) LTRS **£1.15**

Large loose Oak Leaf lettuce with red leaves,
 which can be cut whole or used as cut and come
 again. Said to be less attractive to slugs.

SALAD BOWL (700) LTSS **£1.15**

Excellent cut and come again lettuce to add
 interest to salads. Masses of tender long light
 green leaves form a large sprawling head.

TILL (200) LTTL **£1.15**

A unique and productive lettuce that has be-
 come very popular. Dense heads of arrow head
 shaped leaves for cropping spring to autumn.

LOLLO BIONDI (200) LTLB **£1.15**

Green, very fringed, Loose Leaf type to cut
 whole or for cut and come again.

LOLLO ROSSA (200) LTLR **£1.15**

Similar to Lollo Biondi but with lovely deep red
 tinge to the outside of its leaves. Gives better
 colour if grown outside rather than in tunnels.

TUSKA (200) LTTU **£1.80**

Improved, deep red lollo rossa type. Good bolt
 and disease resistance and can be cropped
 from spring through autumn.

LETTUCE, WINTER GREENHOUSE

BRIGHTON (200) LTBN **£1.80**

Butterhead type for late winter and early spring
 use. Classic large head with fresh green colour
 and good filled heart. Good disease resistance.

MICRO-GREENS

Leafy vegetables which are grown quickly and harvested when only the seed leaves and the first true leaves have formed have become extremely popular recently thanks to their appearance in fine restaurants. However, they also claim health benefits as they are packed with nutrients.

They are easy to grow either in clean fine soil in the garden or more often in seed trays filled with compost bringing a new type of gardening within reach of those with limited space such as a patio, balcony or even a sunny window sill. They grow quickly and should be cut with clean scissors within 7-10 days from reaching their cutting point. Instructions are provided.

We have selected some popular micro-green varieties for you to try. They are the same varieties we have always sold but in larger pack sizes. Most of the seeds in our sprouting seed section can also be grown as micro-greens too; so why not give them a try too.

Remember that all our varieties are also available in larger bulk packs. Check out our website for prices and availability.

Ready in approximately 10 days:

RADISH DAIKON (2500)	SPRAM	£2.25
<i>Green leaf and white stem with mild radish flavour. Very fast growing.</i>		
GIANT RED MUSTARD (2000)	ORGRM	£2.25

-------------------------------	------	--------------

Great collection of five of our favourite micro-green varieties individually packed in an attractive gift pack at a discount price. Comprises: Red Cabbage, Bulls Blood, Mizuna, Rocket and Tat soi.

ORGANIC ONION SETS AND PLANTS

ONION SETS: RADAR Autumn Planting *Delivery Sept-October.*

Brought in to replace Radar, this variety is ideal for autumn sowing. They should be ready 6 weeks before spring sown varieties and give good crops of tasty globe shaped bulbs.

OSRA1 250g **£5.20**, OSRA2 500g **£7.10**, OSRA3 1kg **£10.95**, OSRA4 2.5kg **£22.00**

Organic onion transplants for spring planting: We recommend growing onions from seeds where possible. Onions from seed are often more successful than those from sets and there is a wider choice of varieties. However, they need to be started early with some heat for best results.

For those without the time or facilities to grow from seed, we offer fully organic **Onion transplants.** These will be sent around the end April / beginning of May. They will be ready to be transplanted direct into a fertile, well drained growing site where they should grow away happily yielding tasty onions by the early Autumn.

Good stocks are expected but early ordering is recommended

ONION BAJOSTA

OPBA50	50 PLANTS	£5.30
OPBA100	100 PLANTS	£9.65
OPBA250	250 PLANTS	£14.75

ONION ROBELJA (red)

OPRO50	50 PLANTS	£5.30
OPRO100	100 PLANTS	£9.65
OPRO250	250 PLANTS	£14.75

MARROW

TIGER CROSS F1 (5) MATC **£1.50**

Early and vigorous marrow which can be picked small as courgettes or allowed to grow on into fine marrows. CMV resistant.

MELON

SIVAN F1 (10) MESV **£1.50**

Very popular, Charantais-type with extremely good taste, texture and colour to the flesh.

ONION, SALAD-TYPE

WHITE LISBON (500) ONWB **£1.50**

Very quick growing spring onion and one of the most popular gardeners seeds ever produced. Can be sown successionally from Feb through to late summer. NIAB Rec.

ISHIKURA (500) ONIS **£1.50**

Select Japanese bunching onion, Ishikura does not bulb but forms long, thick, white stems which are both tasty and quite frost hardy.

PARADE (500) ONPA **£2.25**

Attractive, modern variety which does not bulb. Lovely, green, upright foliage. Fast and strong growing with great taste.

ONION

GIANT STUTTGART (250) ONGS **£1.15**

Popular variety with semi-flat bulbs and nice golden skin colour. Very good keeper and fine flavour. Also known as *Stoccarde*.

HYTECH F1 (200) ONHT **£1.80**

Early Rijnsburger hybrid. Vigorous grower and high yielding giving high quality onions suitable for long storage.

STURON (250) ONST **£1.15**

Late maturing onion with large, globe shaped, straw coloured bulbs. Successful variety from sets but also good from seed. Excellent storer.

MUSONA, (500) ONMU **£1.15**

Versatile, tasty and pure white onion. Sow September for the earliest crops or in spring for a productive main-crop. Pick early for salad onions or grow on for larger bulbs but they do not store very well.

BAJOSTA (250) ONBA **£1.50**

A Rijnsburger selection with good storage quality. A fine round form with a pale bronze skin. It grows strongly and can be very high yielding.

ROBELJA (250) ONRO **£1.50**

Dark-red globe type with deep colour that penetrates right through the onion. High-yielding, vigorous and robust with good storage potential.

FERTILE FIBRE

MULTI-PURPOSE COMPOST

60 LITRE BAG FF60 **£17.50**

Made from organic coir, seaweed and other organic nutrients. Ideal for seeds, cuttings and 1st stage potting-on, this compost re-wets easily and has established itself as a favourite for all our herb and vegetable transplants.

WEST RIDING ORGANICS

MULTI-PURPOSE COMPOST

40 LITRE BAG NOMP **£15.25**

Vegan friendly formulation from the Moorland Gold people. This multi-purpose growing media is ideal for general seed sowing and potting on.

RED BARON (250) ONRE £1.50

Round, slightly flat, red onion. Tasty firm bulbs which have a mild flavour. Pick young or allow to mature for good storage onions.

LONG RED FLORENCE (250) ONLO £1.15

Traditional torpedo shaped onion from Italy.

Good sized bulbs with deep red colour. Can be pulled young as spring onions or allowed to mature for harvest in Late summer.

PARSLEY**MOSS CURLED (500)** PAMC £1.15

Traditional parsley and still the most popular.

The densely curled leaves are produced on good strong stems.

GREEN PERLE (500) PAGP £1.50

Top variety with heavy, densely filled, dark green curly leaves on strong stalks. Ideal for undercover or outside use. Good for late sowings.

PLAIN (FRENCH) (500) PAFP £1.15

Dark, green, deeply cut, flat leaves. Aromatic with a very fine flavour which makes it a culinary favourite.

ITALIAN GIANT (500) PAIG £1.50

Vigorous and tasty flat leaved type. Grows to over 75 cm. Providing a stately and aromatic plant for borders or the vegetable bed.

PARSLEY, TUBEROUS-ROOTED**HALBLANGE (300)** PAHA £1.50

Grown primarily for its parsnip-like root this is an unusual garden vegetable with a unique taste. The leaves can also be eaten.

PARSNIP**AROMATA (500)** PSAR £1.80

Intensive selective breeding yields a sweet aromatic variety; specially developed for taste. Slim, smooth, butter-coloured roots of high quality.

HALBLANGE WHITE (500) PSHW £1.50

Our best selling parsnip. Thick, pointed, half length roots which do well in shallower soils. High quality, good taste and frost hardy.

TENDER AND TRUE (500) PSTE £1.50

This is an excellent exhibition variety with large long roots. Good flavour canker resistance.

PEAS, EARLY**METEOR (200)** PEME £1.80

Dwarf growing variety ideal for both autumn and spring sowing. Hardy and ideal for exposed sites. High yields of tasty small pods. Ht 45 cm.

KELVEDON WONDER (200) PEKW £1.80

Productive, early, wrinkle seeded pea. Ideal for successional sowing from spring through summer. Large dark green pods. Ht. 50 cm.

PROGRESS N° 9 (200) PEPR £1.50

Second-early, wrinkle-seeded pea that has become extremely popular. It is prolific, early and has an excellent flavour. Ideal for successional sowings. Ht. 45 cm.

PEA, MAINCROP**AMBASSADOR (200)** PEAB £1.50

Excellent pea for easy picking. Tasty and tolerant of bad weather. The yields are high and it has excellent resistance to powdery mildew and fusarium. Ht. 75 cm.

SENATOR (100) PESE £2.25

Modern tall variety. High yielding main-crop pea giving large pods of tender peas with great flavour. Support is required. Ht. 1.5 m.

RONDO (200) PERO £1.50

Late maturing and heavy yielding pea with large dark green pods up to 10 cm long. Very high taste reputation. Ht. 90 cm.

PEAS, EDIBLE-PODDED**SUGAR DWARF (100)** PEMT £1.50**SWEET GREEN.**

Lovely, tender, sweet tasting deep green pods. Harvest before they start to swell. Ht. 60 cm.

OREGON SUGAR POD II (200) Expected Jan 2019

Check website for availability

Tall growing mange tout with famously sweet flavour and good sized pods. Ht. 1.2 m.

HERAUT (200) PEHE £2.50

Tall growing mange-tout with medium-sized pods. High yielding and a sweet taste. Ht. 1.2 m.

SWEET HORIZON (200) PESW £2.50

Broad long pods which are dark green and very sweet. Mid-early to late main-crop with good disease resistance. Tall growing to about 1.2 m.

NAIROBI (200) PENNA £2.50

Top-quality sugar-snap type, ideal for succession sowing throughout the season. The sweet pods are totally string-less and plants show good tolerance to powdery mildew. Ht. 75 cm.

SUGAR ANN (200)

Expected Jan 2019

Check website for availability

Early-maturing, fine quality 'true' Sugar snap type with tasty, fleshy pods filled with succulent peas. The sweet pods can be eaten raw in salads, steamed or stir-fried. Ht. 75 cm.

RHS award for garden merit.

PURPLE PEA**BLAUWSCHOKKER (100)** PEEZ £2.25

Productive pea with purple pods. Pick early for a colourful mange-tout, later for fresh peas or allow to mature for a fine drying pea. Ht. 1.5 m.

Order online www.tamarorganics.co.uk

ORGANIC SPROUTING SEEDS

Sprouting has come a long way since mustard and cress on a bit of tissue paper, although these old favourites are still very popular. Nowadays the nutritional benefits of this type of growing are well documented and the great thing about the varieties listed here is that they all taste great too. Use a salad sprouter or jar or grow seedlings in punnets for tasty greens.

All varieties £2.25 per pack

ALFALFA (80g)	SPAA	Very high in protein, vitamins and minerals. Alfalfa makes a crisp and delicious salad vegetable that helps lower cholesterol and is very easy to grow.
BROCCOLI (75g)	SPBR	High in anti-oxidants and vitamins make this a healthy choice as well as being a great tasting sprout for salads and sandwiches.
CRESS (75g)	SPCR	Popular salad sprout. For salads and sandwiches.
RED CLOVER (80g)	SPCL	Similar to alfalfa, said to cleanse the blood. Highly nutritious.
MUNG (75g)	SPMU	The bean sprouts of Chinese cookery. Stir fry or use in salads.
MUSTARD (80g)	SPMS	Popular partner for cress. For salads and sandwiches.
RADISH (50g)	SPRA	Delicious, crisp sprouts with a tangy flavour. High in vitamin C.
SUNFLOWER (50g)	SPSU	Sown in shallow compost to give tasty greens at 3-5 cm. tall.

SALAD SPROUTER AVSP £18.75

Well known sprouter from Vogel. Three plastic trays with drainage holes to enable you to grow sprouts cleanly and efficiently.

PEPPERS, HOT CHILLI

BARAK (30) PPBK £1.50

Extremely hot, bullet shaped fruits produced in very large numbers. Mature from pale yellow, through purple to red. Best grown under-cover.

RING O FIRE (30) PPRF £1.50

This Cayenne type gives a mass of long thin pointed pods which mature from green to red and are very HOT! Best grown under-cover.

EARLY JALAPENO (30) PPEJ £1.50

Medium green bullet shaped fruits with fairly thick walls. Fairly hot but not as fierce as some varieties. Best grown under-cover.

HABANERO MAYA (30) PPHO £1.50

Fiery hot, small, lantern-shaped fruits up to about 5 cm in length. Mature from green to pale red. Best grown undercover.

HABANERO MAGNUM (30) PPHM £1.50

Orange version of the above, Slightly shorter and fatter. Very HOT! Best grown under-cover.

HUNGARIAN HOT WAX (30) PPHH £1.50

Small plants with large fruits that start off sweet and gradually get hotter as they mature. Best grown under-cover.

SLIM JIM (30) PPSJ £1.50

Very productive Anaheim type giving 10-15 cm long, fleshy chilli peppers which are mildly-hot with a very nice flavour and which dry well. Plants are tall so will need support.

PEPPERS, SWEET (Open-pollinated)

LUNCHBOX MIX (12) PPLM £2.25

Excellent mix of red, orange and yellow these are beautiful mini-sized lunchbox snack peppers which are remarkably sweet, crisp and flavourful. Best grown under-cover.

SWEET TAMAR MIX (30) PPSM £1.50

Selection of varieties to give mix of shape colour and size. Mild flavour. Best grown under-cover.

CALIFORNIA WONDER (30) PPCW £1.50

Mild and sweet flavoured blocky fruits. Can be picked green or red. Best grown under cover.

Order online www.tamarorganics.co.uk

YOLO WONDER (30) PPYW **£1.50**

Large shiny dark green fruits developing a red stripe as they mature. Thick fleshy square fruits. Early and prolific. Best grown under-cover.

XARO (5) PPXA **£3.25**

Large pointed red pepper to replace Atris F1. Fruits are very tasty, yield well and can grow up to 22 cm long. Best grown under-cover.

ZAZU (5) PPZA **£3.25**

Large pointed yellow pepper, similar to Xaro. Fruits are very tasty, yield well and can grow up to 22 cm long. Best grown under-cover.

KYRA (5) PPKY **£3.25**

Large pointed orange pepper similar to Xaro and Zazu. Fruits are very tasty, yield well and can grow up to 22 cm long. Best grown under-cover.

GOLDEN CALIFORNIA (30) PPGC **£1.50****WONDER**

Golden yellow version of this blocky gardeners favourite. Best grown under cover.

CORNO DI TORO ROSSO (30) PPCO **£1.50**

Attractive red curved cones which grow to over 20 cm long. Tall plants. Best grown under-cover.

LONG RED MARCONI (30) PPRM **£1.50**

Long red sweet pepper with mild flavour. Very productive and easy to grow. Best grown under-cover.

PEPPERS, SWEET (F1 hybrids)**BENDIGO F1 (5)** PPBE **£3.25**

Early hybrid suitable for cold greenhouses.

Blocky, thick-walled, deep red fruits have made this a standard for professional growers.

COOPER F1 (5) PPCP **£4.65**

Full-sized, conical, red hybrid which is fast to mature and resistant to Blossom end rot. Ideal for cold or heated greenhouse.

Resistant to TM, 0-3.

LILO F1 (5) PPLI **£3.25**

Beautiful purple fruits that will turn red when fully mature but have a lovely fresh taste at the purple stage. The plants are short and strong with good disease resistance. Best grown under-cover.

FIESTA F1 (5) PPFE **£3.95**

Bright yellow blocky variety. Early and high yielding. Firm fruits set well on open plants. Best grown under-cover.

SPRINTER F1 (5) PPSR **£3.95**

Excellent tasting blocky pepper for use with a cold or heated greenhouse. Thick walled and can be harvested green or red.

PURSLANE**SUMMER PURSLANE (2000)** PUGR **£1.15**

Succulent leaves make an excellent addition to summer salads or can be stir-fried or boiled.

RADISH**CHERRY BELL**

Check website for availability

Most popular garden radish. Scarlet, globe shaped roots staying crisp for a long period.

FRENCH BREAKFAST (400) RAFR **£1.15**

Popular half-long, white tipped variety. Attractive and tasty. Quick growing and slow to go pithy.

RUDOLF (400) RARL **£1.80**

Professional quality radish ideal for the earliest crops under cover and throughout the season outside. Round scarlet roots of uniform size slow to go woody and taste great.

RUDI (400) RARD **£1.50**

Short-leaved radish which is fast-growing and uniform. Round, red with a fine root can be grown early and late under-cover.

SAXA (400) RASA **£1.15**

High-quality, early, red radish which stands well and has some resistance to downy mildew.

LONG WHITE ICICLE (200) RALW **£1.50**

Long white roots with a tasty mild radish flavour and a crisp texture. Ideal for slicing in salads. Easy to grow inside and out.

SPARKLER 3 (400) RASP **£1.15**

Globe shaped roots of deep red with a striking white tip. Keeps its flavour, slow to go woody.

MIXED RADISH (400) RAMX **£1.50**

Special economical mixture to give a nice variation of colours and root shape all in one row.

RADISH, WINTER**CHINA ROSE (425)** RACR **£1.15**

Long rose pink roots with pure white flesh. Can be harvested in autumn and stored if required.

ROSA (425) RARO **£1.15**

Large tapered roots similar to China Rose but more uniform in size.

BLACK SPANISH (200) RASR **£1.15****ROUND**

Black skinned with crisp white flesh and peppery flavour. An interesting radish to grow and can be stored well in boxes of sand.

ORGANIC SHALLOT SETS**LONGOR**

Delivery Dec-March

Traditional French type with elongated bulbs, copper coloured skin and pink flesh.

SSLO1 **250g £5.25** SSLO2 **500g £6.95**

SSLO3 **1 kg £11.50** SSLO4 **2.5 kg £27.00**

MELOINE

Delivery Dec-March

Downy mildew resistant variety producing 6-8 bulbs which are round with a golden red skin.

Sow from late March onwards for best results.

SSME1 **250g £4.95** SSME2 **500g £6.95**

SSME3 **1 kg £11.50** SSME4 **2.5 kg £27.00**

ROCKET

RUCOLA COLTIVATA (1000) RORU £1.15

Superior salad rocket with attractive large leaves of excellent flavour. Ideal for mixed leafy salads. Slow bolt variety.

ESMEE (1000) ROES £1.50

Attractive highly lobed rocket gives a new shape to leafy salads. Vigorous grower and a good taste.

WILD ROCKET (1000) ROWI £1.50

Smaller leaves than salad rocket and with a far more intense flavour. Sought after salad leaf where flavour is important.

LETIZIA (1000) ROLE £1.80

Professional standard wild rocket with intermediate resistance to downy mildew and strong against fusarium. Fast growing and slow to bolt.

SALSIFY (180) SALS £1.50

Old, almost forgotten root vegetable. Sometimes known as "vegetable oyster" Sweet aromatic taste.

SCORZONERA

VRN ENORMA(150) SCLB £1.15

Heavy yielding with long, smooth, black roots. Excellent flavour and good resistance to bolting. Interesting root crop which is easy to grow.

SPINACH

GIANT WINTER (500) SPGW £1.15

Large leaved winter variety which is sown from Aug to the end of Oct. For late winter use. Can also be sown in March for a summer crop.

MATADOR or ATLANTA (500) SPMA £1.15

All year round variety with dark green leaves. Sow from March to October.

EARLY GIANT LEAF (500) SPEG £1.15

Fast growing, prickly-seeded variety. Especially suited to early and late cultivations. Good cold tolerance. Large tender leaves. Very tasty.

GAMMASON (500) SPGA £1.50

Developed for those who want to crop spinach in the summer months. Slow-growing, bolt-resistant non-hybrid suitable for spring and summer use with smooth, round and very dark leaves.

RENEGADE F1 (500) SPRE £1.50

Excellent variety which matures extremely quickly, is disease resistant and has a very sweet taste. Can be over-wintered in mild areas.

NEW ZEALAND (50) SPNZ £1.80

Not a true spinach but is cooked in a similar way with a similar taste. Fleishy green leaves can be picked continually until the first frosts. Does not go to seed in the summer in the same way that true spinach does.

PERPETUAL SPINACH SPLB £1.15

(ERBETTE) (250)

Not a true spinach but a high quality leaf beet. Ideal for dry conditions where normal spinach can easily bolt. Can provide valuable greens throughout the winter.

SQUASHES, PUMPKIN TYPES

BIG MAX (10) SQBM £1.50

The big one. Large fruits up to 50 kg with smooth round skin and tasty flesh. This is the choice for keen competition growers.

JACK'O'LANTERN (10) SQJO £1.50

The perfect Halloween pumpkin and certainly one of our most popular. Medium sized golden fruits ready in about 4 months.

TOM FOX (10) SQTF £1.80

A more refined Jack o lantern type with uniform fruits of 6-10 kg in weight. Deep orange colour, well-ribbed with thick fleshy walls, the fruits grow on a trailing vine.

MUSQUEE DE PROVENCE (10) SQMU £1.80

Traditional French pumpkin with vigorous vines. Ribbed fruits mature from dark green to ochre and can reach up to 8 kg in weight.

JACK BE LITTLE (10) SQJB £1.50

Probably the smallest pumpkin but the tastiest too. Cricket ball sized fruits which can be boiled or roasted & served whole.

ROUGE VIF D'ETAMPES (10) SQRV £1.80

Trailing variety with large flat-round orange/red fruits that are reminiscent of the Cinderella carriage. So often called the Cinderella pumpkin. Can grow up to 10 kg but normally around 6-8 kg

SQUASHES, NON-PUMPKIN TYPES

TUFFY(10) SQTU £1.50

Unique heavily ribbed acorn squash with thick flesh that is sweeter and drier than most acorn types. Bush to short-vine plants yield 5 to 6 fruits which average about 1 kg.

BLACK FUTSU (10) SQBF £1.50

Heavily ribbed black skinned pumpkin of 1-2 kg. Excellent flavour when roasted. Will turn beige with a grey coating if left to mature fully.

BLUE BALLET (10) SQBL £1.80

Soft blue grey skin with sweet orange flesh. Lovely flavour and keeps well. Each plant will produce 2-3 fruits up to 2 kg. each.

BLUE KURI (10) SQBK £1.80

Similar to the Green Hokkaido squash but with a blue tinge to the skin. Excellent flavour and texture will make this a favourite.

Order online www.tamarorganics.co.uk

- BUTTERNUT (10)** SQBW £1.50 Productive large butternut which grows up to 30 cm long. Dense flesh and stores well.
- TIANA F1 (10)** SQTN £1.80 Excellent hybrid butternut with high yields of top quality fruits which do not get too large weighing 1-1.2 kg. The flesh is dark and sweet.
- CUSTARD WHITE (10)** SQCW £1.50 Creamy, white flat fruits with a scalloped edge. An unusual squash with a fine flavour.
- JAUNE F1 (10)** SQJE £2.50 Yellow patty-pan type similar to Custard White. High yields of saucer sized fruits with a scalloped edge and a bright yellow colour.
- DELICATA (10)** SQDE £1.50 Cream coloured elongated fruits with a green stripe this is a distinct strain which is excellent for stuffing and baking. The trailing plants produce 5-7 fruits about 20 cm. long.
- MARINA DI CHIOGGIA (10)** SQMA £1.50 Big green tasty squash with knobby skin and a flat globe shape. Stores well and taste improves with age.
- BUTTERCUP (10)** SQBT £1.80 Reputedly one of the most delicious squashes ever and certainly one of our favourites. Green skin and firm sweet flesh, ideal for roasting as well as soups and pumpkin pie.
- GREEN HOKKAIDO (10)** SQGH £1.80 Our favourite squash thanks to its dry and nutty flavoured, orange-yellow flesh. Stores well, up to February from a September harvest.
- RED (UCHIKI) KURI (10)** SQRK £1.50 Onion shaped squash with bright, orange skin and lovely, nutty flavour. High yielding and easy to grow.
- FICTOR (10)** SQFI £1.80 Professional standard Uchiki Kuri type. It is fast growing so can be sown a little later if required. Many uniform fruits per plant give high yields.
- ORANGE SUMMER F1 (10)** SQOR £2.50 Improved large Uchiki kuri type with uniform, high-quality fruits of 1.4 -1.6 kg. Semi-bush plants with some resistance to downy mildew.
- AMORO F1 (10)** SQAM £1.80 High yielding and early, heart-shaped Uchiki Kuri type with orange skin and flesh. The plants are non-trailing and vigorous The 0.8 -1.2 kg fruits will store up to four months.
- SWEET DUMPLING (10)** SQSD £1.80 A real star among winter squashes. Sweet Dumpling produces large numbers of small, bi-coloured fruits which are ideal for stuffing or cooking whole. Very good taste and texture.
- TURKS TURBAN (10)** SQTU £1.80 Brightly coloured squash. Ideal for eating stuffed or for ornamental use. Can grow very large and stores well.
- VEGETABLE (10)** SQVE £1.50 **SPAGHETTI**
Unique plant producing large fruits which are boiled whole, or baked before forking out the spaghetti-like flesh. Strange but true.
- ORANGETTI F1(10)** SQOG £2.50 Improved, hybrid spaghetti squash with a deep orange skin and flesh. Early, high yielding with slightly sweet spaghetti-like flesh on bush plants.
- SOMBRA F1(10)** SQWS £1.80 Previously named **Winter Sweet F1**, this variety has great taste and texture. It keeps well and improves with storage. Fruits are light grey with a charcoal mottling and average 2-3 kg.
- SWEDE**
WILHELMSBURGER (300) SWWB £1.15 Excellent green-topped with yellow roots and very firm flesh. Quite cold tolerant. Stores well.
- LOMONDE (300)** SWLO £1.50 Club root and mildew resistant purple topped swede. Winter hardy for use from October-Feb.
- SWEET CORN**
GOLDEN BANTAM (50) SCGB £1.50 Good quality cobs, early and sweet non hybrid which is used as a basis for many of the newer varieties. Larger kernel size than most modern types too. Heirloom variety.
- TRUE GOLD (50)** SCTR £1.80 Heirloom variety with golden yellow kernels and a rich buttery flavour. Matures Sept.
- DOUBLE STANDARD (50)** SCDS £2.25 Vigorous, early bicolor sweet corn. Ripens in 73 days giving cobs of approx 17.5 cm. Good flavour and attractive. Ht 1.5 m.
- TRAMUNT (50)** SCTM £2.25 Extra-sweet variety. The transformation of sugars into starch is considerably slowed down, giving a sweeter taste some time after harvest. The plants are robust and tall. The cobs are large, regular, flavoursome and very sweet.
- TOMATILLO**
TOMATILLO VERDE (10) TMVE £1.50 Green tomato like fruits surrounded by a papery lantern. They are a favourite in Mexican cooking and essential in authentic salsas. Grow like tomatoes (plants will need support). Best grown under cover. The fruits crop August-September.
- TOMATILLO PURPLE (10)** TMPU £1.50 Purple version of the above. Needs plenty of sun to ripen to full purple colour.

Order online www.tamarorganics.co.uk

TOMATO

A must for any gardener if only because it is so difficult to buy nice tasting tomatoes in the shops nowadays. This section is divided into tall (indeterminate) types and bush growing (determinate) types and further subdivided into small, medium and large sized fruits.

TOMATO, TALL (INDETERMINATE) TYPES

SMALL FRUITS

BLACK CHERRY (10) TOBL £1.50

Vigorous Cherry tomato which ripens to dark purple. Tall growing plants are vigorous and healthy. Good tasting fruit about 25g in weight.

GARDENERS DELIGHT (25) TOGD £1.15

Still the most popular small tomato and for very good reason. Produces masses of fine flavoured cocktail sized fruits.

BARTELLY F1 (5) TOBT £2.95

A modern hybrid cherry tomato with very long trusses and a good taste balance between sweet and sour. Good disease resistance. Ideal for the unheated greenhouse.

YELLOW SUBMARINE (25) TOYS £1.15

Yellow cocktail tomato with very tasty small yellow, slightly pear-shaped fruits on large trusses. Potato leaved type.

CLEMENTINE (25) TOCM £1.15

Clementine's small, uniform, oval-round, orange coloured fruits weigh about 5-10g. The plants produce high yields and the tomatoes have an excellent, sweet-tart flavour.

DEVOTION F1 (5) TODV £3.25

Well flavoured cocktail tomato with a deep red and shining colour. Trusses ripen evenly so can be picked whole to look good on the plate. For undercover use.

MIRABELLE BLANCHE (25) TOMI £1.15

Unique, acidic, tangy tasting fruits which are a very pale yellow ivory colour. The largish cocktail sized fruits are produced in profusion and are definitely worth a try for tomato lovers.

SAKURA F1 (5) TOSA £2.95

Another real favourite with our professional growers. Firm cherry tomato with excellent taste and colour. Vigorous plants which do best undercover and produce large trusses.

ZUCKERTRAUBE (25) TOZT £1.15

Very popular cherry type mainly for use undercover, though can be grown outside in sheltered areas. Large trusses laden with tasty fruits which will crop right through the summer.

GOLDIANA (10) TOGO £1.50

Orange cherry tomato that is fast becoming a favourite. Easy to grow with very tasty 20-25g fruits on a strong growing very open plant.

MEDIUM-SIZED FRUITS

CINDEL F1 (5) TOCN £2.25

Very early medium sized tomato which can be grown undercover to crop in the spring from a December sowing. 130g fruits.

DOUGLAS F1 (5) TODG £2.95

Vigorous, early variety with tasty high quality medium fruits of approx 100g in weight. This variety is high yielding and attractive.

GIMLI F1(5) TOGM £2.95

Vigorous, fairly early new variety with 80-90g fruits. Very shiny, round, tasty, red fruits with 10-12 per truss. This variety has been particularly bred for undercover use in organic production.

GOLDEN QUEEN (25) TOGQ £1.15

Popular and high yielding yellow salad tomato with an exceptionally fine flavour. Heirloom variety dating back to 1800.

GREEN ZEBRA (10) TOGZ £1.50

Extraordinary tangy tasting fruits which go from light green with dark green stripes to yellow with green stripes when mature. Indeterminate type. Fruit weighs approx 100g.

MATINA (25) TOMA £1.15

Early potato-leaved tomato for greenhouse or outdoor use. Medium sized bright red fruits with good resistance to splitting and to cold weather.

QUADRO (25) TOQU £1.50

Fast growing oval fruited tomato which can be grown inside or out. Has shown considerable tolerance to BLIGHT. Fruits are firm and tasty.

SPARTA F1 (5) TOSR £2.95

Very tasty medium-sized salad tomato with good disease resistance and firm flesh. Average fruit weight 110g.

YELLOW PERFECTION (25) TOYP £1.15

Smooth golden yellow round fruits are formed on sturdy plants. Early to fruit and high yielding. Heirloom variety.

BOCATI F1 (5) TOBC £2.95

Undercover type. Vigorous plants with bright red fruits which ripen all together on the truss for an attractive presentation. Fruit weight 110g.

TIGERELLA (25) TOTG £1.50

Distinct red fruits with golden stripes. Not just a novelty though; it is heavy yielding and has a really fine flavour.

SAN MARZANO (25) TOSM £1.15

Red, plum type produces heavy crops for cooking and bottling, sauces and purees. Best grown undercover. Can be grown as a bush.

POZZANO F1 (5) TOPZ £2.95

Classic, San Marzano hybrid with 150g fruits of excellent quality. High yielding and good disease resistance. Best grown under-cover.

LARGE FRUITS

BRANDYWINE (10) TOBR £1.50

An heirloom variety, widely regarded as one of the finest flavoured large tomatoes with a distinct dark pink colour. Grown inside or outside it is fairly slow growing, but is worth the wait.

OXHEART (25) TOOX £1.15

Traditional Italian tomato with large pink heart shaped fruits. Very tasty and has thick meaty flesh and little juice. So ideal for sandwiches.

BERNER ROSE (25) TOBE £1.15

Fine tasting large pink tomato which is very easy to grow. Very attractive colour and smooth round, tasty fruits. This is probably our favourite large tomato.

SAINT PIERRE (25) TOSP £1.15

Quite large, fleshy tomato which is very prolific. Traditional and tasty French heirloom variety which has become one of our favourites.

MARMANDE (25) TOMM £1.15

Large, irregular fruits which originated in France. They are late to mature but the taste is well worth waiting for. Can be grown as bush type.

VELOCITY F1 (5) TOVE £2.25

High yielding beef tomato. Fruit weight 220g. Vigorous, open plant that does well in various conditions. For heated or cold indoor use.

TOMATO, BUSH (DETERMINATE) TYPES

DEFIANT F1 (5) TODF £2.25

Bred for flavour and BLIGHT RESISTANCE. Globe-shaped with deep red colour. Fruit weight around 200g. Suitable for indoor or outside use.

KORALIK (10) TOKO £1.50

Very early bush producing very high yields of small, sweet, red cherry tomatoes. Strong growing plants show excellent tolerance to BLIGHT. Ideal for pots, hanging-baskets or open ground.

PRINCIPE BORGHESE (25) TOPR £1.15

The king of Italian paste tomatoes. The 50g fruits are the most suitable for the production of sun dried tomatoes, bottling and pureeing.

ROMA (25) TORO £1.15

Medium late type of red plum tomato. Can be grown outside or under glass and has good disease resistance.

BETTY F1 (10) TOBY £2.25

Bush beefsteak variety with deep-red fruits up to 225g in weight. It is early, vigorous and high yielding. It can be grown inside or out.

BANANA LEGS (10) TOBA £1.50

An heirloom variety which produces 10 cm. long yellow fruits that resembles a banana (very slightly). Very high yields can be obtained.

TURNIP

FLAT WHITE MAY (500) TUFL £1.50

Fast growing flat white roots for harvesting in May and June from a spring sowing or in the autumn from an August sowing. Tasty tender flesh of good quality.

GOLDANA (500) TUGN £1.50

Fast growing yellow turnip for spring and summer sowing. Tasty and productive.

MILAN PURPLE TOP (500) TUMI £1.15

Useful traditional early type with flattish purple topped roots.

WHITE GLOBE (500) TUWG £1.15

Traditional white turnip with smooth round roots and bright purple top.

WATER MELON

CRIMSON SWEET (20) WMCS £1.50

With protection in early stages and lots of water thereafter, this trailing variety can be successful in our gardens. Shelter required.

ORIENTAL VEGETABLES

CHINESE CABBAGE

GRANAAT (100) ORGN £1.50

Long green heads with crisp leaves. Valuable salad crop which can mature in 7 weeks, or be cut early for cut and come again.

KABOKO F1 (50) ORKA £1.80

Cylindrical heads which can weigh over 1 kg. Kaboko is an excellent, professional-quality variety with dark green outer leaves and a tight compact habit. Crops May to November.

ORIENTAL GREENS & SALADS

KOMATSUNA (250) ORKO £1.50

Very hardy, green, leafy vegetable from Japan. Pick young for microgreens or salad leaves or allow to grow on for spinach leaves for braising, boiling and stir-fry.

TOKYO BEKANA (400) ORTB £1.50

Bright green, broad leaved variety with sweet tender crispy leaves which are ruffled at the edge. Can be eaten raw as young or mature leaves. Also great for stir-fry.

GOLDEN FRILLS (400) ORGF £1.50

Delicately cut leaves with a spicy flavour which develops as the plant matures. Can be picked young as baby leaf, older as cut and come again or as a full headed mature crop. Pair with Purple Frills for an attractive salad mix.

Order online www.tamarorganics.co.uk

- PURPLE FRILLS (400)** ORPF £1.50
A deep purple red colour. The delicately cut leaves have a spicy flavour which develops as the plant matures. Can be harvested as Golden Frills above.
- SCARLET FRILLS (500)** ORRM £1.50
Previously sold as Red Mizuna this is very similar to Purple Frills. Delicately cut leaves have a spicy flavour developing as the plant matures.
- PURPLE WAVE (400)** ORPW £1.50
Fricilly, textured leaves with purple tinge and bright green stems, this is a cross between Osaka Purple and a type called Green Frills. Medium spicy as a baby-leaf but quite hot when mature.
- RUBY STREAKS (250)** ORRU £1.50
Dark green and maroon leaves which are highly serrated. The leaves have a sweet and mustardy flavour. Great for salad or stir-fry.
- GREEN IN SNOW (400)** ORGS £1.15
(CHINESE MUSTARD)
Grown for it's hot leaves and used for salads and stir-fry. Pick when young for baby leaf or allow to mature when the leaves get hotter. Frost hardy.
- MUSTARD GIANT RED (500)** ORGR £1.15
Decorative and tasty red leaved green. Cut as baby leaf at 15 cm or leave to mature to 45 cm. Tasty mustard flavour which gets hotter as the plant matures.
- OSAKA PURPLE (400)** OROK £1.15
(MUSTARD SPINACH)
Purple/red, large lettuce like leaves with a fairly hot mustard flavour. Attractive and tasty addition to late summer salads.
- GREEN WAVE (250)** ORGW £1.50
Bright lime-green flat leaves which are heavily ruffled at the edges when mature. The flavour is quite pungent but reduces on cooking
- MIZUNA (500)** ORMZ £1.15
Excellent, and now the most popular, non-heading salad plant with deeply cut spicy flavoured leaves which can also be stir fried. Vigorous and cold hardy.
- PURPLE MIZUNA (400)** Expected Jan 2019, call or check website for availability
- Attractive purple-veined leaves that are sharply serrated and have a mild flavour. Colour becomes more pronounced as the weather cools.
- MIBUNA (400)** ORMB £1.15
Japanese green with long strap like leaves. Tastes slightly stronger than Mizuna though it is still quite mild. Pick young leaves after about 3 weeks or allow to mature.
- SERIFON (400)** ORSE £1.15
Popular in Japan but a native of China, it has broad green leaves with jagged margins and a mildly spicy flavour. Vigorous and cold hardy.
- NAMENIA (400)** ORNA £1.15
Early and productive salad similar to Mizuna but earlier and slightly less serrated. Mature plants will form an attractive rosette.
- RED ORACHE** ORRO £1.15
An attractive red leaf which is delicious raw or cooked. Picked young the leaves are a tasty addition to mixed salads. They can also be grown on to be cooked like spinach.
- SESSANTINA (500)** ORQU £1.15
BROCCOLI RAAB
Quick growing oriental green. Abundant crops of serrated leaves with mild peppery taste.
- SHUNGIKU (500)** ORSH £1.50
Known as Chop Suey greens or Chrysanthemum greens. Bright-green, deeply-cut, aromatic leaves can be eaten raw or cooked.
- ORIENTAL MIX (400)** ORTS £1.80
Our own organic mix of oriental varieties and rocket to give a unique salad mix. Ideal for cut and come again salads or stir-fry.
- PAK CHOI**
PAK CHOI (400) ORPC £1.15
Organic pak choi with dark green leaves and crisp juicy white central stem.
- TAI SAI (250)** ORTI £1.15
Fine sturdy heirloom Pak Choi variety with deep green leaves and white stems. Lovely fresh taste in stir fries and salads.
- TATSUI, GREEN COIN (400)** ORTA £1.15
Broad round leaved rosette greens with a wide central stem which is crisp and juicy. Plants produce large rosette of small Pak Choi type leaves.
- SHANGHAI GREEN (250)** ORSG £1.50
Dark green, spoon-shaped leaves with wide, light green midribs and mild flavor. Shanghai forms densely packed, vase-like heads. Plants can be spaced closely for baby choy, which is in demand with top Asian chefs for its tenderness and mild flavor.
- VIVID CHOI (250)** ORVC £1.50
Unique Pak Choi with stems which range from pale pink to vivid pink and purple. The leaves are slightly serrated. Great for salad mixes, braising or stir-fry. Both cold-hardy and slow to bolt, allowing for a long harvest window.

All our usual composts,
pest controls, fleeces etc are still
available through our website

www.tamarorganics.co.uk

GREEN MANURES

Grown to benefit the soil. They are normally fast growing. They produce masses of fine roots and foliage which hold nutrients and return them to the top few inches of soil when dug in. They can also smother weeds and protect the ground from the winter weather. Some have long tap roots dredging nutrients up from deep in the soil and others fix nitrogen from the air. Use when soil is free. Some are particularly valuable over winter.

ALFALFA

16 sq metres (35g)	OGMAL35	£1.15
50 sq metres (100g)	OGMAL100	£2.25
250 sq metres (500g)	OGMAL500	£7.95

Very deep roots, suitable for dry conditions but does not like acid soils. Can be over wintered. Dig in when still green. Slight nitrogen fixer.

Sow May to August.

BUCKWHEAT

8 sq metres (50g)	OGMBU50	£1.15
20 sq metres (125g)	OGMBU125	£1.80
80 sq metres (500g)	OGMBU500	£4.95

Sow May-August when soil is warm. Grows very quickly and produces large amounts of organic matter. Dig in after 10-12 weeks.

CRIMSON CLOVER

20 sq metres (35g)	OGMCC35	£1.15
60 sq metres (100g)	OGMCC100	£2.25
300 sq metres (500g)	OGMCC500	£6.25

Useful in sandy soils and an excellent nitrogen fixer. Attractive to bees if left to flower. Sow March to June or August for overwintering.

RED CLOVER

20 sq metres (35g)	OGMRC35	£1.15
60 sq metres (100g)	OGMRC100	£2.95
300 sq metres (500g)	OGMRC500	£8.95

Deep rooting and fast growing perennial crop which fixes nitrogen. Can be cut for compost and left to re-sprout. Can be over wintered. Sow April-August.

WHITE CLOVER

32 sq metres (35g)	OGMWC35	£1.15
100 sq metres (100g)	OGMWC100	£3.25
500 sq metres (500g)	OGMWC500	£15.00

Short growing medium leaved variety. Quick to establish. Ideal for under-sowing tall crops. Fixes nitrogen. Can be over wintered. Sow April-August

MUSTARD

15 sq metres (35g)	OGMMU35	£1.15
50 sq metres (100g)	OGMMU100	£1.80
250 sq metres (500g)	OGMMU500	£5.00

Very quick growing, can be used from March to Sept. Treat as a brassica in the rotation.

PHACELIA

14 sq metres (30g)	OGMPT30	£1.15
35 sq metres (75g)	OGMPT75	£2.25
500 sq metres (500g)	OGMPT500	£9.25

Sow March to Sept. Dense foliage to dig in just before flowering. Leave a few flowers around the edge to attract bees

ITALIAN RYE GRASS

5 sq metres (50g)	OGMIR50	£1.15
25 sq metres (250g)	OGMIR250	£2.95
50 sq metres (500g)	OGMIR500	£4.95

Sow Aug-November to over-winter and dig in in the spring. Thin foliage with extensive roots.

FODDER RADISH

6 sq metres (35g)	OGMFR35	£1.15
18 sq metres (100g)	OGMFR100	£1.80
90 sq metres (500g)	OGMFR500	£6.25

Deep tap root bringing up nutrients from the subsoil. Lots of organic matter. Dies down over winter to dig in during spring. Sow May-August.

TARES

12 sq metres (75g)	OGMTA75	£1.15
45 sq metres (250g)	OGMTA250	£2.25
90 sq metres (500g)	OGMTA500	£3.95

Fast growing annual. Fixes nitrogen and is winter hardy. Sow March to September and turn in in the spring. Dislikes acid soils.

FIELD BEANS

3 sq metres (75g)	OGMFB75	£1.15
10 sq metres (250g)	OGMFB250	£2.45

Limited quantities available check website for availability.

Very popular choice. This fixes nitrogen, can be over wintered and will sprout after 1st cut to give second lot of foliage. Sow September-November.

GRAZING RYE

5 sq metres (50g)	OGMGR50	£1.15
25 sq metres (250g)	OGMGR250	£2.95
50 sq metres (500g)	OGMGR500	£5.50

Popular green manure for winter use. Improves soil structure, suppresses weeds and prevents the leeching of nutrients by the winter rain. Sow August-October. Dig in during the Spring.

For larger quantities of Green Manures or any other seed items in this catalogue, telephone our growers enquiry line on

01579 371182 or go online www.tamarorganics.co.uk

HERB SEEDS

- ANISE (200) (A)** Expected Jan 2019. Call or check website for availability
Delicate plant with pretty white flowers. Aniseed for flavouring breads etc. Ht. 30cm.
- BASIL, CINNAMON (600) (A)** HBCI £1.15
Cinnamon flavour basil from Mexico. Ht. 45cm.
- BASIL, GREEK (600) (A)** HBGR £1.15
Fine leaved miniature bush-type basil with small leaves and good scent.
- BASIL, LEMON (600) (A)** HBLE £1.15
Low-growing basil with beautiful lemon fragrance. Can be used in teas. Grows to 15 cm.
- BASIL NUFAR F1 (600) (A)** HBNU £1.50
Fusarium tolerant vigorous and bolt resistant, hybrid basil. High yielding, sweet and spicy.
- BASIL, CHEN (600) (A)** HBSS £1.15
Super-sweet variety and reputed to be the best Genovese type.
- BASIL, DEEP PURPLE (600) (A)** HBDP £1.50
Deep coloured red basil. Very good appearance, aroma and taste.
- BASIL ELEONORA (600) (A)** HBEL £1.50
Professional standard basil with intermediate resistance to Downey mildew. Large leaves. Ideal for open-field and pot-production.
- BASIL, SWEET (600) (A)** HBSW £1.15
The popular culinary basil with a very fine flavour. Ht. 45cm.
- BASIL, THAI (600) (A)** HBTH £1.50
Used in Thai cooking. Attractive purple flowers and stems. Unique scent and taste.
- BORAGE (100)(A)** HBOR £1.50
Beautiful blue bee plant with edible flowers. Easy to grow.
- BURNET, SALAD (115) (P)** HBUR £1.50
Slightly bitter leaves for salad use. Ht. 30cm.
- CARAWAY (250) (B)** HCAR £1.50
Leaves and seeds used as garnish and flavouring. Ht. 60cm.
- CHAMOMILE (4000) (A)** HCHA £1.15
Daisy-like flowers for teas and skin/hair wash. Ht. 60cm.

LAWN CHAMOMILE, TRENEAGUE *Dispatched April-May*

Non-flowering, low growing chamomile strain for the creation of an apple scented lawn
Quickly forms roots when potted or planted.
Plant 15 cm apart and the plants will quickly spread to fill the bare soil between them.

25 Plantlets CHLA £15.00

CHERVIL, FINE-CURLED (500) (B) Expected Jan 2019. Call or check website for availability
Delicate, curled, fern-like leaves. Look similar to parsley and can be used in the same way.

CHERVIL MASSA (500) (B) Expected Jan 2019. Call or check website for availability
Flat leaved with a very fine taste. Look similar to parsley and can be used in the same way.

CHIVES (850) (P) HCCV £1.15
Mild onion flavour, medium sized leaves to be cut for salads and sandwiches.

CLARY SAGE (100) (B) HCLS £1.80
Very decorative flower bracts and aromatic leaves. Biennial. Ht. 60 cm.

CORIANDER, FILTRO (500) (A) HCFI £1.50
Improved coriander. High yielding slow bolt variety for leaf production. Ht. 1m.

DILL (900) (A) HDIL £1.15
Tetra variety with a sweet taste. Ingredient in sauces and pickles. Ht. 90cm.

ECHINACEA (200) (P) HECH £1.15
Purple coneflower. Attractive border and cut flower. Medicinal properties. (Ech. Purpurea)

FENNEL, COMMON (230) (P) HFEC £1.50
Green leaved with distinctive scent and flavour.

FENNEL BRONZE (100) (P) HFBR £1.50
The same distinctive scent and flavour of common fennel with bronze tinge to the leaves.

FEVERFEW (500) (A) HFEV £1.50
A favourite migraine cure. Daisy flowers and bitter leaves. Ht. 50 cm.

HYSSOP (300) (P) HHYS £1.15
Fine, blue-flowered bee-plant. Ht. 45cm.

LAVENDER, ENGLISH (500)(P)HLAE £1.50
Scented lilac flowers. Tricky to germinate but well worth the effort. Tall type for hedges. 90cm.

BALM, LEMON (200) (P) HBAL £1.15
Strong lemon scented bushy herb. Makes a delightful tasty tea. Ht. 75cm.

LOVAGE (100) (P) HLOV £1.50
Large shrub with celery like taste to leaves and stems. Ht. up to 2m.

MARIGOLD, POT (100) (A) OFCA £1.15
Traditional marigold with attractive single flowers. Edible petals for salads and a lure to beneficial insects, particularly bees.

MARJORAM SWEET, (2000) (A) HMAS £1.15
Use the sweet leaves to flavour all types of dishes. Useful in potpourri.

MINT, PEPPERMINT (900)(P) Expected Jan 2019, call or check website for availability
Strong, dark green leaves with excellent flavour.

OREGANO (2000)(P) Expected Jan 2019, call or Check website for availability
Special variety with fine flavour. The best for culinary use and a must for pizza. Ht. 60cm.

ROSEMARY (60) (P) HROS £1.50

Evergreen shrub with needle shaped leaves.

Culinary favourite. Ht.1m. Slow to germinate.

RUE (100) (P) HRUE £1.15

Herb of grace. Blue-grey lacy foliage and small

yellow flower. Foliage can irritate sensitive skin.

SAGE (100) (P) HSAG £1.50

Perennial bush providing tasty aromatic leaves.

Old plants get woody so should be replaced

every three to four years.

SAVORY, SUMMER (1200) (A) HSUS £1.15

Plant and eat with beans. Attractive pale pink

flowers. Ht.45 cm.

SAVORY, WINTER (1000)(P) HWIS £1.15

Hardy dwarf perennial bush. Stronger than

summer savory but has the same uses.

SORREL, FRENCH (800)(P) HSOF £1.15

Traditional, large leaved type for sauces, soups

etc. Ht. 60 cm.

ST JOHNS WORT (2000) (P) Expected Jan 2019.

Call or check website for availability

Ancient medicinal herb with anti-bacterial properties.

TANSY (400) (P) Call or check website for availability

Aromatic herb with fern like leaves and yellow

flowers. Insect repellent. Ht.1m.

THYME, COMMON (1500)(P) HTHM £1.15

Perennial culinary herb which forms a decorative

low shrub with flowers that bees love.

YARROW (400) (P) HYAW £1.80

Feathered leaves with white or pink flowers.

Medicinal herb. Ht.1m.

ORGANIC SOFT FRUIT

Regretfully, due to the unseasonably hot weather during the summer we are unable to offer our usual variety of soft fruit bushes for the Autumn of 2018.

All the currant bushes listed here are 2 year-old bare-rooted plants.

All Soft-fruit bushes dispatched November –March.

REDCURRANTS

Easy to grow and prolific. Allow 1.2-1.7 m between plants.

Sold as bare rooted 2 year old plants. High in vitamin C. Require a rich soil.

ROVADA RBRO

A very high-yielding variety with a vigorous upright habit. The berries are large and produced

on long strings. They are easy to pick and freeze well. Harvest July into August.

QUANTITY	1 BUSH	3 BUSH	10 BUSH
ROVADA	£10.60	£25.00	£59.00

BLACKCURRANTS

Easy to grow and prolific. Allow 1.2-1.7 m between plants.

Sold as bare rooted 2 year old plants. High in vitamin C. Require a rich soil.

BEN GAIRN BBBG

Earliest variety with medium sized berries of fine

flavour. Resistant to foliar diseases and the only

variety resistant to reversion virus.

BEN CONNAN BBBC

Early, high yielding with very large, tasty berries

making it popular for those growing for shows.

Resistant to mildew and leaf curling midge. Medium sized bush.

BEN HOPE BBBH

Very high yielding, producing medium-sized

berries on long strings. Good resistance against

most foliar diseases and big-bud resistant. A

mid-season variety the plants are tall so sheltered position needed.

QUANTITY	1 BUSH	3 BUSH	10 BUSH
B. GAIRN	£10.60	£25.50	£59.50
B. CONNAN	£10.60	£25.50	£59.50
B. HOPE	£10.60	£25.50	£59.50

CHUCKLEBERRY

CBCH

A jostaberry, gooseberry, red currant cross with

flavours of all three. Grown like a blackcurrant, it

is early cropping and gives high yields of deep-

purple berries which taste great. Ideal for jams,

ice-cream flavouring or fresh.

QUANTITY	1 BUSH	3 BUSH	10 BUSH
CHUCKLEBERRY	£10.95	£28.25	£65.00

RHUBARB PLANTS

We are hoping that Organic Rhubarb will be available this season.

Please check out our website

www.tamarorganics.co.uk

for prices and availability.

Or telephone 01579 371087 for details.

STRAWBERRIES

Listed in order of maturity. For more detailed cropping times please see the website.

Dispatched March and April

CHRISTINE

STCH

Very early with large, firm, bright, orange-red fruits of excellent flavour. Resistance to Verticillium wilt and mildew and it may need fleecing to protect the early flowers from frost,

CAMBRIDGE FAVOURITE

STCF

A well known older variety which is still popular due to its reliability and tolerance. Consistent heavy crops of orange conical, very juicy fruits of fine flavour. A favourite for jam making.

PEGASUS

STPG

Probably one of the best disease resistant varieties and justifiably popular. High quality fruits with excellent flavour. Prefers slightly heavy soils. Resistant to wilt, mildew and crown rot.

SYMPHONY

STSY

Late season variety which yields very heavy crops. Very good disease resistance and seems to thrive in damp conditions so ideal for the North and West of the country. High quality bright red fruits with excellent flavour.

	10	25	50	100	200
ALL TYPES	£21.75	£39.75	£67.50	£118.00	£205.00

BIOLOGICAL CONTROLS

Biological controls are non-chemical pest controls. They work by using one organism to control another with no danger to other creatures. The predators used occur naturally in the UK, though rarely in the numbers required to reduce the pests that affect our gardens. They do have a **limited shelf life** and many are dependant upon temperature and other conditions.

SLUG CONTROL (NEMASLUG)

Pack to treat up to 40 sq. m SLCP **£14.99**

Pack to treat up to 100 sq. m SLCX **£29.99**

Nemaslug needs soil temperatures of 5-20°C so is best used between March and October.

Each pack contains millions of microscopic nematodes which are mixed with water and applied with a watering can. They enter slugs through the cowl and breed, killing the slug in the process but producing many more nematodes to prey on more slugs. Soil should be moist and protection should last up to 6 weeks.

See website www.tamarorganics.co.uk for full range of biological controls

ORGANIC FRUIT TREES

Carriage of £16.00 is chargeable on all fruit tree orders to most mainland addresses.

Delivery November to March

About Rootstocks: Fruit trees are grafted onto rootstocks which determine vigour and eventual size. The rootstocks available for each variety are given in brackets alongside the pollination group. A brief description of the rootstocks available is given below:

M27 Very dwarfing rootstock. Good soil and permanent staking is required. Height up to 2m.

M9 Dwarfing rootstock between M26 and M27. Ht 2-2.5m

M26 Semi dwarfing Rootstock. For trees 2.6m -3.5m in height.

MM106 Most popular rootstock ideal for most situations. For trees 3.75m-5m in height.

M25 Our most vigorous rootstock giving trees of 5m-6.5m in height.

About Pollination Groups: Each apple tree is assigned a pollination group which is shown by a letter in brackets after the name. A tree will need a pollinator from the same group (or one group either side) nearby for pollination. Some varieties are "Triploid" and need two pollinating partners.

APPLE TREES

£16.50 Each

Early Season Apple Varieties.

WORCESTER PEARMAN (C) APWP

(M26,MM106, M25) A classic favourite with sweet red and yellow fruit. Reliable cropper and a good pollinator.

DISCOVERY (C) APDS

(M26,MM106,M9,M25) Very good early eater with crisp, juicy, red apples. Disease resistant and a good pollinator.

KATY (C) APKA

(M9,M26,MM106) Early and high yielding with bright red fruits. Refreshing taste with some acidity. Trouble-free and a good pollinator.

JAMES GRIEVE (C) APJG

(M9,M26,MM106) Well known red and yellow eater which is sweet with some acidity. Hardy so good for difficult situations.

TOM PUTT (C) APTO

(MM106,M25) Old south-west cider apple which also makes a lovely acidic dessert variety. Angular apple with crimson red skin.

Mid-Season Apple Varieties.

LORD LAMBOURNE (B) APLL
(M9,M25,M26,MM106) Reliable, heavy cropping eating apple. Red and green, sweet juicy and aromatic. Forms a compact tree.

CHARLES ROSS (C) APCH
(M26,MM106) Attractive eating apple that also cooks well. Red and yellow, sweet flavoured large fruits which have some scab resistance.

BOUNTIFUL (C) APBO
(MM106,M26) Excellent cooker and a good alternative to Bramley. Pale green skin striped with orange. Heavy cropping and trouble free.

FIESTA (C) APFI
(M9,M26,MM106) Fiesta is a modern variety suitable for colder areas. Skin has a bright red flush. Flesh is sweet and juicy with a balancing acidity. Also known as Red Pippin.

SUNSET (C) APSU
(M25,M26,MM106.) Similar to a Cox but with better disease resistance. Heavy crops of smallish apples. Excellent choice for the garden.

Late Season Apple Varieties.

BRAMLEY (CT) APBR
(M25,M26,MM106) Very popular cooker. Vigorous with large green fruits of top quality.

BLENHEIM ORANGE (CT) APBL
(M26,MM106) An old favourite dessert apple which can be used as a cooker. Large yellow and orange fruits with a slight russet.

EGREMONT RUSSET (B) APEG
(M25,M26,MM106) Popular russet. Yellow, sweet with a nutty flavour. Trouble free dessert variety.

ELLISONS ORANGE (D) APEO
(MM106,M26) A rich flavoured dessert apple flushed brownish red with stripes of brighter red mixed in. A hardy variety suitable for growing in the north and east.

HEREFORDSHIRE RUSSET (C) APHE
(M26,MM106) A russet variety giving small-medium apples with a rich Cox like flavour. Trouble free variety that yields well.

HOWGATE WONDER (D) APHG
(M26,MM106) Very large late cooker with yellow skin flushed with orange. Sub-acid light taste when cooked. Also pleasant eating apple.

RED FALSTAFF (C) APFA
(M9,M26,MM106) High yielding, modern variety. Red and green with fine flavour. Disease resistant, self-fertile and a good pollinator.

A WIDER SELECTION OF FRUIT TREES ARE
AVAILABLE ON OUR WEBSITE
www.tamarorganics.co.uk

PLANTING YOUR FRUIT TREE.

Growing fruit trees successfully requires an open situation with plenty of light, shelter from prevailing winds and a freely draining soil. Good light ensures good growth and ripening of fruit. Shelter warms the site and improves pollination, growth and fruit production. The ideal soil for fruit trees is a well drained, slightly acidic loam.

When selecting a site, make allowances for the future growth of trees and ensure good air circulation. Encourage the growth of fruit by regular pruning. Trees should not be planted too close together.

Aim for the following distances between trees for the following rootstocks.

M26 4 m. **M27** 2m. **MM106** 5m.

M25 10 m. **M9** 2.5m.

St Julian A 4-5 m. **Pixy** 3 m.

Quince A 4 m. **Quince C** 3 m.

Gisela 5 2.4-3 m.

ANNIE ELIZABETH (D) APAE
(MM106,M26) Large red and green cooker named after the daughters of a Leicestershire nurseryman. Excellent keeper.

D'ARCY SPICE (C) APDA
(MM106) Old Essex dessert variety dating back to late 1700's. Sweet yet acid taste that is spicy in hot dry summers. Skin is yellow/green with fine russetting.

ASHMEADS KERNAL (E) APAK
(M25,M26,MM106) Pale green with a brown russet. Crisp yellow flesh, sweet and a little acidic. Good scab resistance and keeps well.

COX, SELF-FERTILE (C) APCS
(M9,MM106,M26) The same as Cox Orange Pippin but self-fertile. Excellent flavour with golden skin flushed with orange and red.

LAXTON'S SUPERB (D) APLS
(MM106,M26) Purple/red on yellow skin with a Cox like flavour. Very hardy but can become biennial cropping as it matures.

YARLINGTON MILL (C) APYA
(MM106,M25) Cider variety. Bittersweet type making a very enjoyable cider on its own.

CRAB APPLE TREES

£16.25

Crab apples are often grown as ornamental trees and will pollinate other fruiting apples. They produce masses of small fruits which can be made into crab apple jelly. Available as maidens on MM106 rootstock only.

RED SENTINEL

CARS

Excellent crab apple with white flowers in spring and bright red fruits in autumn through to late winter.

JOHN DOWNIE

CAJD

White flowers followed by conical, bright orange and red fruits which are large for crab apples and of good flavour.

PLUM TREES

£19.00

All plums are available on St Julian A rootstock, giving moderate vigour and reaching 4m-5m in height. Some are available on Pixy dwarfing rootstock. All are self-fertile unless stated.

BLUE TIT

PLBT

Round medium sized dark blue plums with yellow flesh. Fairly juicy and of good flavour. Reliable cropper and a good garden variety. Also available on Pixy rootstock.

CZAR

PLCZ

Dark purple skin with yellow flesh. Culinary variety which can be used as a dessert plum when ripe. Quite frost resistant.

EARLY PROLIFIC

PLEP

Small, dark-purple plum with a bloom. Rich, slightly sharp taste makes it good for eating or cooking. Makes good jam. Requires pollination.

FARLEIGH (DAMSON)

PLFA

Lovely damson producing heavy, regular crops of oval blue black fruits with a heavy blue bloom. Hardy so good for northern areas.

WARWICKSHIRE DROOPER

PLWD

The tree has an attractive drooping habit. The fruits are large, yellow with attractive red speckling and fine flavoured, yellow juicy flesh. Plums can be used for cooking or eating

CAMBRIDGE GAGE

PLCG

The classic greengage fruit. Sweet and juicy with excellent flavour. Medium-sized, yellow-green skin with yellow flesh. Partially self-fertile. Also available on Pixy rootstock.

OULLINS GAGE

PLOG

Large, round, gage-type. Greenish yellow skin and flesh. Juicy and vigorous. A good pollinator. Also available on Pixy rootstock.

VICTORIA

PLVA

Pale-red fruits with yellow-green flesh, sweet and juicy. Good pollinator. Heavy cropper. Also available on Pixy rootstock.

MARJORIES SEEDLING

PLMS

The latest cropping plum for cooking or eating. Large deep purple fruits with blue bloom. Also available on Pixy rootstock.

SANCTUS HUBERTUS

PLSA

Good quality early dessert plum. Medium sized with dark red skin and a blue bloom. Yellow flesh with good rich flavour. Needs pollination.

SHROPSHIRE PRUNE (DAMSON)

PLSP

Medium sized blue/black damsons with a flavour considered to be the best of the damsons. It is self-fertile and makes a small tree.

SWAN

PLSW

A useful dual purpose mid-season variety. Produces quite round dark red skinned plums with a purple bloom. The flesh is juicy and sweet good for eating as well as cooking. Versatile plum.

YELLOW EGG

PLYE

Very widely grown in Vale of Evesham since 1820. High yields of large yellow plums. Hardy, reliable and self-fertile.

CHERRY TREES

£19.75

Available on Gisela 5 dwarfing rootstock which is ideal for most garden situations. Site should be sheltered from wind and not in a frost pocket.

LAPINS

CTLA

A dessert variety producing well-flavoured, large, dark-red to black fruits. The flesh is dark red and excellently flavoured. Pick late June into mid July. A self-fertile type that will help to pollinate others.

MERCHANT

CTMR

Early dessert cherry. Large red/black fruits of very good flavour. Not self-fertile. Pollinated by Stella, Lapins, Sunburst & Merton Glory. Pick time early July.

MERTON GLORY

CTME

Fruits are heart shaped rather than round with attractive red and yellow skin and white flesh. Not self-fertile but can be pollinated by Stella and Sunburst.

STELLA

CTST

Well known dessert variety producing large dark juicy cherries in late July. Very productive and self-fertile.

SUMMER SUN

CTSS

Dark red cherries on hardy trees which can be grown through most of the UK. Pick late July. Self-fertile.

SUNBURST

CTSU

A very productive Cherry. Produces dark red eating cherries of excellent taste ripening mid July. Good for growing in most parts of the UK. Compact growth. Self-Fertile.

PEAR TREES

£17.50

Unless stated otherwise, all pears available on Quince A rootstock - moderately vigorous rootstock giving trees 3.6m-4.5m high.

BEURRE HARDY (C)

PEBE

Medium to large fruits coloured russet brown and red. Very juicy with good flavour. Strong grower. Ideal for most areas. Crops mid-September.

CONFERENCE (C)

PECO

A reliable and heavy cropping favourite with pale yellow, melting flesh of good sweet flavour. The medium-sized fruits are normal pear-shaped but can be long and narrow. Crops late September.

LOUISE BONNE OF JERSEY (B)

PELB

A very attractive pear flushed deep red over much of the fruit. Reliable cropper of good quality - sweet, juicy and melting. Medium sized smooth skinned fruits. Crops late September.

DOYENNE DU COMICE (C)

PEDC

A dessert pear with medium to large yellow fruits. Excellent flavour. Best grown in a warm sunny position. Heritage variety dating back to 1849. Crops early September.

ONWARD (C)

PEOD

Excellent quality with creamy white flesh, melting, juicy, with a rich sweet flavour and balancing acidity. Medium-sized, yellow-green skin with pink red flush. A reliable cropper. This variety was introduced in 1947 from Wisley. Crops early September.

WORCESTER BLACK (C)

PEWB

One of the oldest pears in cultivation dating back to 1575. Large green fruits covered by a brown russet. A culinary pear which needs considerable cooking but a unique and interesting variety to try. Crops Late October.

PEACH, MEDLAR AND

QUINCE TREES

£19.00

PEACH PEREGRENE

PCPE

White flesh peach with large orange crimson fruits. UK bred but needs warmth so is best grown on a wall as a fan. Ripens early August.

MEDLAR, NOTTINGHAM

MDNO

Unusual fruit tree whose fruit needs to be left to rot slightly in the autumn before using to make jam, chutney or even cheese. Harvest the 3-5 cm fruits late October/early November when there is a slight 'give' to them.

QUINCE MEECHES PROLIFIC

QUMP

Large fruits that ripen golden yellow. A good reliable cropper. Pick late October. Self-fertile. Available as one year old trees on Quince A rootstock giving a height of 3.6m – 4.5m.

ORGANIC WILLOW TREES

These Organically Certified willow cuttings are all suitable for basketry, living fences and sculptures. Easy to grow: just plant half of the cutting in the ground and keep weed and grass free for the first three years. Pollarding (cutting down to two feet to promote growth of numerous rods for cutting) should take place November to February. Cultivation instructions included. We offer three coloured varieties, green, purple and golden. You can mix and match.

Cuttings will be sent in February.

GREEN WILLOW: WTGR *Salix viminalis*. As a tree this will grow to 8m tall, when pollarded produces rods 2.4m long by 10mm in diameter. Also ideal for short rotation coppicing.

PURPLE WILLOW: WTPU *Salix daphnoides*. As a tree this will grow to 8m tall, when pollarded produces rods 2.8m long by 8-16mm in diameter. Gives winter colour and used as a standard ornamental tree and in flower arranging.

GOLDEN WILLOW: WTGO *Salix alba vitellina*. As a tree this will grow to 25m tall. When pollarded produces rods 2.2m long by 10mm in diameter. Attractive winter colour.

	GREEN WILLOW	PURPLE WILLOW	GOLDEN WILLOW
3 CUTTINGS	£6.75	£6.75	£6.75
5 CUTTINGS	£8.75	£8.75	£8.75
10 CUTTINGS	£16.00	£16.00	£16.00
20 CUTTINGS	£26.00	£26.00	£26.00
50 CUTTINGS	£53.00	£53.00	£53.00
100 CUTTINGS	£88.50	£88.50	£88.50

An extended range of fruit trees and rootstocks is available on our website.

FLOWER VARIETIES

KEY: P = Perennial, HP = Hardy Perennial,
A = Annual, B = Biennial,
HA = Hardy Annual, HHA = Half-hardy Annual, GP =
Greenhouse Perennial.

Numbers in brackets refer to average seed count.

AMARANTHUS OFAM £1.50
TRICOLOUR (HHA) (500)

Dark red stems and dark red semi pendulous feathery flowers in summer. Ht 90 cm.

ANTIRRHINUM, OFAN £1.50
SNAPDRAGON MIXED (HHP) (1000)

Popular bedding/border annual. Mixed colours. Treat as annual. Ht. 35 cm.

ASTER OFAS £1.50
SINGLE MIX (HHA) (400)

Large mix of colours all with a distinctive yellow eye. Cut flowers from July to Nov. Ht 50 cm.

CALENDULA OFCA £1.15
POT MARIGOLD (A) (100)

Traditional, single, cottage garden flower with bright orange blooms. Very attractive to bees.

CANDYTUFT (A) (250) OFCF £1.50
A lovely display of lilac-coloured flower heads in July and August. Ht 25 cm.

CARTHAMUS, OFCT £1.50
TINCTORIUS (A) (50)

Lovely orange flowers produced 12 weeks after sowing. For cut flowers or dried.

CHRYSANTHEMUM, OFCH £1.80
ANNUAL MIX (A) (100)

Attractive single flowers with white, yellow, red and brown rings around the flowers. Excellent cut flower. Ht 30-50 cm.

CLARKIA ELEGANS OCPM £1.50
PINK MIX (A) (500)

Summer blooms from June to Sept. Lovely mix of shades from lilac to pale-pink. Ht. 40-60 cm.

CONVOLVULUS, OFCD £1.50
DWARF TRICOLOUR (A) (80)

Blooms in blue and white shades with a yellow eye. From June to mid-August. Ht 30 cm.

CORNCOCKLE (A) (40) OCCO £1.50
Aggrostemma githago. Bee plant with purple

and pink flowers from June to August. Ht 1m. (A)

CORNFLOWER, OCFB £1.50
BLUE (A) (250)

Traditional, cottage garden flower with tall stems for cutting. Ht. 90 cm.

CORNFLOWER, OCFM £1.50
MIXED (A) (100)

Mixed version of the traditional cornflower. Red, rose, maroon, blue & white. Ht 90 cm.

CORN MARIGOLD (A) (100) OCMA £1.50

Yellow flowers from July to October 30 - 50 cm, Good cut flower.

COSMOS, OFCC £2.25

COSMEA (HHA) (75)

Tall vigorous plants with large simple flowers in red, pink and white. Easy to grow.

ORGANIC SEED POTATOES

Ministry certified and Soil Association (SA) or
Scottish Organic Producers Association (SOPA)
approved organic seed potatoes.

PACK SIZES: All Seed Potatoes are now available in 1.5 kg packs, *except Highland Burgundy Red which is available in 1kg packs.*

Although there is considerable variance between varieties, on average you can expect approximately **10 tubers** per kg.

SUBSTITUTIONS:

In the event of your choice being unavailable **we will substitute an alternative** unless you state on your order form that this is NOT acceptable.

PLEASE NOTE:

Some varieties will not arrive with us until late January. If you order different varieties we will hold your order back so that they can all be sent at one time. If you want them sent separately we regret that we will have to apply additional carriage charges.

POTATO CARRIAGE

All seed potatoes are priced without carriage. *In addition there is a separate charge for carriage which has to be added to every potato order.*

For Most UK addresses **excluding** Highlands and Islands, I-O-Man and I-O Wight the carriage charge is as follows.

For orders up to 1.5 kg in weight **£3.50**, For orders up to 25 kg in weight **£6.95**,

For orders up to 50 kg in weight **£11.50**,

Plus £4.75 for each additional 25 kg or part thereof.

For Up to date Availability and new varieties order online at www.tamarorganics.co.uk

FIRST EARLY VARIETIES

CASABLANCA: 1.5 kg POCB £2.95
25 kg POCB25 £28.50

Unique first early with a high dry matter s suitable for frying and roasting which is unusual for an early potato. Yields are high and taste is very good. You can have home-grown chips in July.

COLLEEN: 1.5 kg POCN £2.95
25 kg POCN25 £28.50

Early type originating from Ireland. A fairly waxy potato that is both tasty and productive and versatile in the kitchen. Some blight resistance.

MARIS BARD: 1.5 kg POMB £2.95
25 kg POMB25 £28.50

Very early giving good crops of oval shaped tubers with white skin and shallow eyes. Good all round cooker with some blight, scab and drought resistance. Very fine taste.

SECOND EARLY VARIETIES

BAMBINO: 1.5 kg POBA £2.95
25 kg POBA25 £28.50

High yields of small potatoes. Popular amongst growers for those punnet potatoes that are so expensive in the shops. White skinned with waxy cream flesh. Ideal for salad potatoes and boiling.

BRITISH QUEEN: 1.5 kg POBQ £3.15
25 kg POBQ25 £32.50

This country's most popular second early at the turn of the century and still a favourite in Ireland. Produces large numbers of attractive tubers with a superb flavour and a floury texture.

CHARLOTTE: 1.5 kg POCH £2.95
25 kg POCH25 £28.50

High yielding waxy salad potato. Long oval tubers with yellow skin and flesh. Easy to grow, its lovely taste and texture make it very popular.

COSMOS: 1.5kg POCO £2.95
25 kg POCO25 £28.50

Similar to Estima with good blight resistance and similar high quality yield. A real favourite amongst our customers with valuable resistance to blight and common scab.

DIDO: 1.5kg PODI £2.95
25 kg PODI25 £28.50

General purpose potato with yellow skin and a cream flesh. Long-oval tubers have shallow eyes and lovely taste. Good scab and blight resistance and store well.

MARIS PEER: 1.5 kg POMP £2.95
25 kg POMP25 £28.50

High quality salad / boiling potato which has been a favourite amongst gardeners for some years. Great taste and waxy texture.

MARFONA: 1.5 kg POMA £2.95
25 kg POMA25 £28.50

High yielding second early producing large tubers ideal for baking. It is known for its waxy texture and does not disintegrate on cooking.

MARYS ROSE: 1.5 kg POMR £2.95
25 kg POMR25 £28.50

New introduction with pink skin and creamy white flesh. Great taste and high yields and versatility in the kitchen. Ideal for boiling, mash and wedges.

MILVA: 1.5 kg POMV £2.95
25 kg POMV25 £28.50

Excellent and increasingly popular second early that may well replace Nicola. It has better blight resistance, higher yields and a wonderful taste and waxy texture. Definitely worth a try.

NICOLA: 1.5 kg PONI £2.95
25 kg PONI25 £28.50

High yielding, with long, yellow fleshed tubers. Nicola has excellent cooking qualities and makes a good early salad potato. Has good disease resistance.

ORLA: 1.5 kg POOR £2.95
25 kg POOR25 £28.50

Another blight resistant variety which has become popular among gardeners as a high yielding general purpose potato with good taste. Oval shaped tubers with creamy skin and flesh.

SARPO UNA: 1.5 kg POSU £2.95
25 kg POSU25 £28.50

Blight resistant variety which can be harvested as a waxy type or can be left in the ground to give a good crop of floury baking potatoes. Good all-round disease resistance.

MAIN-CROP VARIETIES

AMBO: 1.5 kg POAM £2.95
25 kg POAM25 £28.50

Beautiful Cara cross and an excellent all rounder. Good blight resistance and high yielding. Excellent baking potato and popular amongst those who grow for the show bench.

ARRAN VICTORY: 1.5 kg POAR £2.95
25 kg POAR25 £28.50

A real gourmet potato with bright purple skin and wonderful floury, mealy taste and texture. Late maturing and with virtually no blight resistance but probably the best roasting potato ever.

POTATO SACKS

Strong paper sacks for the storage of up to 25 kg of potatoes.

5 sacks PSAC £6.50

BELMONDA:	1.5 kg POBE	£2.95	KINGSMAN:	1.5 kg POKI	£2.95
	25 kg POBE25	£28.50		25 kg POKI25	£28.50
<p>Round-oval potato with yellow skin and yellow flesh. Excellent disease resistance, including blight and tolerates dry conditions. Good taste, holds shape when boiled and stores well.</p>			<p>New, high-yielding, early, main-crop with an excellent flavour and all-round disease resistance. A good all-rounder but particularly good for chips.</p>		
CARA:	1.5 kg POCA	£2.95	LINDA:	1.5 kg POLI	£2.95
	25 kg POCA25	£28.50		25 kg POLI25	£28.50
<p>Popular pink-eyed, main-crop which has a long reputation of being blight resistant and which can give very high yields. Good for roasting / baking.</p>			<p>Old European variety. It was saved from extinction by a group of committed gardeners who revered it's eating qualities. Tasty with a waxy yellow flesh. Ideal for boiling and salads.</p>		
CAROLUS	1.5 kg POCL	£2.95	PINK GYPSY:	1.5 kg POPG	£2.95
	25 kg POCL25	£28.50		25 kg POPG25	£29.50
<p>Blight resistant variety with yellow skin and flesh and an attractive pink eye. The flesh is fairly mealy with an excellent flavour . It is ideal for mash, roast and chipped potatoes. This variety has resistance to foliage blight and tuber blight.</p>			<p>Very attractive and unusual pink and white skins on oval shaped tubers, with a fluffy white flesh that is ideal for baking, roasting and mashing.</p>		
DESIREE:	1.5 kg PODE	£2.95	ROBINTA:	1.5 kg PORB	£2.95
	25 kg PODE25	£28.50		25 kg PORB25	£28.50
<p>Popular, early, maincrop with red skin and yellow flesh. Extremely good baker and roaster. Good resistance to drought though can suffer from scab (avoid sandy soils). NIAB Rec.</p>			<p>This fine variety has good all round disease and drought resistance and produces excellent yields of oval red skinned tubers with cream coloured flesh. Ideal for baking and general culinary use.</p>		
FOXTON:	1.5 kg POFO	£2.95	RECORD:	1.5 kg PORC	£2.95
	25 kg POFO25	£28.50		25 kg PORC25	£28.50
<p>Foxton comes with a high reputation as a very versatile potato with a great taste. It can be boiled, baked, roasted and chipped. It does not discolour on boiling and has an attractive pale yellow flesh and red skin. Add to this some late-blight and scab resistance and you have a potato that is sure to become a favourite.</p>			<p>Sought out by discerning gardeners. Record is a classic floury potato with high dry matter and great flavour. White skin and yellow flesh. excellent roasting potato and chipper.</p>		
GATSBY:	1.5 kg POGA	£2.95	SANTE:	1.5 kg POSA	£2.95
	25 kg POGA25	£28.50		25 kg POSA25	£28.50
<p>Early main-crop variety with large white tubers, with shallow eyes that make it ideal for baking. The flesh is cream in colour with a very pleasing taste and flavour. Some resistance to late blight and scab.</p>			<p>Early maincrop variety with fine tasting yellow fleshed tubers with good all round disease resistance. Popular and reliable variety.</p>		
GOLDEN WONDER:	1.5 kg POGW	£3.15	SARPO AXONA:	1.5 kg POSX	£2.95
	25 kg POGW25	£32.50		25 kg POSX25	£28.50
<p>A Classic late main-crop dating back to 1906. Still a favourite among crisp producers. Dry floury and very tasty particularly after a period in store. Excellent roasting potato.</p>			<p>Resistant to blight as well as virus and silver scurf, Axona is a uniform and very tasty Sarpo variety developed from the popular Sarpo Mira. It is ideal for baking and roasting and stores well.</p>		
HIGHLAND BURGUNDY RED	1 kg POHB	£3.15	SARPO MIRA:	1.5 kg POSM	£2.95
	25 kg POHB25	£40.50		25 kg POSM25	£28.50
<p>Unique heritage variety with red skin and red flesh too. Tubers are long-oval with fluffy flesh that makes excellent red mash, chips or crisps. <i>This variety is sold in 1kg nets, the seed is a little smaller so expect an average of 15 tubers per net.</i></p>			<p>Late main-crop red potato with fairly floury flesh. High yielding and reputed to be less attractive to slugs. Ideal for baking and roasting. Developed for its resistance to blight and this is still one of the most resistant varieties available.</p>		
			SETANTA:	1.5 kg POSE	£2.95
				25 kg POSE25	£28.50
			<p>Floury and very blight resistant red main-crop with very good eating quality. Ideal for baking and roasting. Tall robust plants have purple flowers and are very high yielding.</p>
